

William Hoyle Earley Aboard USS Coral Sea

William Hoyle Earley, seaman, first class, son of Ralph C. Earley of route 2, Kings Mountain, N. C., is a crew member of the large aircraft carrier USS Coral Sea, based at Norfolk, Va.

way class of aircraft carriers, the Coral Sea was launched in 1945 and commissioned in 1946 at Newport News, Va. Her sister ships are the Midway and the Franklin D. Roosevelt.

Since she is one of the three longest and heaviest ships yet built for the Navy, the Coral Sea can carry more than 100 aircraft.

AND HIS NEWS
OF NEBO VALLEY

Why I work for Martin L. Harmon. I like his medicine. If you take it according to directions it will promote your happiness and good will to others.

Will Brown went to Charlotte Friday on business. Bill Ross and wife moved this week to Hill Top.

B. J. Myers and wife were Charlotte visitors Wednesday.

If that fellow H. E. Stassen, candidate for the Republican nomination for President don't change his name we better not vote for him. We don't want no Stassen up there to fool the people.

Mr. Hitler is a typical evolutionist. He don't believe in the devil, hell, or anybody else, but Joe Stalin and his blood-thirsty military devils and monkeyites believe in starting a war.

The Bible teaches that by sin the first man fell. Evolution says it's a lie. That the first man never fell. That man has always been evolving on an upward trend. I'm glad I believe in the Bible and what it teaches.

Richard, did you ever notice if you tell the truth on some folks they kick like a Missouri mule? Just tell a lie on 'em and they faint. I've got used to it. It blows over so quick.

A Florida farmer 86 says he smokes 18 cigars a day. If he gave them all away he could be Governor of his State next year.

Evolution teaches that man was once a tadpole and evolved up to a two-legged varmint like we is today. What you say, Hiram?

It beats me, sometimes we have to force sick people to take medicine.

Well, the smart folks up at the city of Washington D. C., are terrible interested in bringing over the displaced people of Europe. We better worry about the displaced Americans. The time has come to begin on the job producing instead of destroying. Time to save more hogs more cattle, more cotton to feed the bellies and clothe the backs.

Why can't a man wear his wife's dress or any other gal's frock up street same as the women folks wear the man's britches and strut all over town? I see women uptown in britches. Just let a poor man come up street in a frock he might land in jail, but I don't see why I can't wear a gown up town. All right if I wear 'em short enough I'd hate to get in jail with a frock on.

I will gladly do anything I can to help those starving people over seas but boiling up good grain to make bad boze I'll be dam dozzled if I'm going to go hungry in order that somebody can get drunk and raise all kinds of hell in a cotton country like this, Hiram!

The whiskey makers approved by our government are stewing grain into whiskey while the rest of the

world is starving for bread. Great God, white folks, looks like we got to have hell broth if the rest of the world goes flat to Texas. Hiram, I can't help telling the truth. If some of you folks don't like it, O. K. sister.

It's like this—if the price of ham and eggs keep going up, butter a dollar a pound, makes things go slick and greasy and instead of the women making their dresses longer she will be forced to go into slacks or some kind of britches—if she is lucky to get any at all.

Mark Twain once said—"only fools learn by experience" I've had mine in times gone by.

Good breeding consists of concealing how much we think of ourselves and how little we think of the other fellow—big I and little you!

Many of our young people might turn out better if they turned in earlier. This two o'clock stuff won't do in a cotton country.

A Judge up in the State of Washington rules a man can't kiss a gal properly while driving a car. That looks reasonable, don't it Hiram?

Some folks never feel just right unless there's something the matter with them.

We believe rest would be all right were it not for the fact it makes one so tired and sleepy—lazy, too.

Free speech if rightly used will promote good fellowship, love and kindness—But we can't ever learn from a fool.

I hope our readers will excuse me for not being a typical Evolutionist. I just can't see through that eye. I believe God created the earth and men to live on it. He did it for his own Glory. He loved us before the foundation of the earth. He made us in His own image not in the form of an ape—nor a jackass.

You never thought I'd be a poet: My sweetheart is the lady in the moon, To her I'm going to be married very soon. Down behind some dark cloud where no one is allowed I'll marry this lady in the moon.

North Carolina farmers are being asked to go all out in a fight to kill rats on the farms, and to control further infestations.

One way to take out "life insurance" on your electric appliances is to store them in a clean, handy, dry place where they will be protected from falls.

Electric appliances should be connected to wall outlets—not to drop cords or lamp sockets.

FROM DUSK TO DAWN.....

Is the most serious time for a fire to start. The hours of darkness will find you most unprepared to combat a serious fire. We would like to offer for your examination our fire insurance policies to protect you financially against fire loss.

Cherryville, N. C.

The true value of telephone service is much greater than its cost. Many types of concerns depend entirely upon the telephone to secure business. To them it is indispensable—yet the cost is only a few dollars a month. In fact, in all business, the value of telephone service is far greater than the cost.

The same is true with respect to the everyday home and social use of the telephone. There are times when just one call alone may be worth the cost of the service for several months. If you kept an account of the trips your telephone saves you each month and of the comfort, protection and pleasure it affords, you would find that the price you pay is much less than the value you receive.

The amount you are asked to pay, however, is never more than enough to pay operating costs plus a return on investment sufficient to enable the Telephone Company to secure from investors the millions of dollars of new money needed for improvement and expansion of the service.

Let CHEVROLET Super Service INSPECT YOUR BRAKES

Brakes are just as much a working mechanism as the motor in your Chevrolet. Numerous pieces are subject to every day, normal wear—plus the grit and abrasives which they pick up that accent this wear. Have them checked, inspected and adjusted regularly. Our expert Chevrolet mechanics have the "know how." And pronto you'll be back on the street, ready for traffic signals and the sure, swift stops that eliminate unnecessary hazards.
