About 4,000 stage shows — with casts representing every level of talent from amateur veteran — patients to leading stage, screen and radio stars — were given for patients in Veterans Administration hospitals during a three-month period ending Sept. 30. Audiences during the period totaled 380,000.

Of the 1,089,201 World War II veterans who obtained G-I loans by the end of October, 971,565 bought or built homes; 36,711 purchased farms or farm equipment; and 80,925 went into business.
