## H. Y. Belk AND HIS NEWS OF NEBO VALLEY

Mr. Cat Houser called to see me. I sure was glad to see him. He brought me a load of wood, bark and all. Good wood. He sells it for fess.

Mr. Rob Parrish sure did have a nice little rhyme in the paper about me. He sure did expose me to all my girl friends. They were thinking pretty well of me. Oh, well, probably I can make up with them. They know I am a good boy, but I can't forgive him just yet.

That old story Mr. Parrish spoke about. The only way you can keep this old hog in is to shut up the hole. If I see my shadow I'd think it was Rob Parrish.

Well, boys and gals, this weather reminds me of about 85 years ago, don't it Mr. Rob?

If all the men were of the same mind we'd all want the same woman. That would never do. It would cause more fights and so many gals would be beautiful, not bow-legged understand.

Why is it a woman lives longer than a man? I believe it's because she has more to talk about it. I know woman's work is never done. That's another reason she don't die young.

I'm glad North Carolina has chosen the dogwood tree for our State flower. Last week was Dogwood week, the last week in January set apart by Mr. Cherry, our Governor. I love the Legend of the Dogwood tree. Gosh, that last week in old January sure was a blossom finder.

Selfishness of all sins is the most damming sin of all ages. It was born in the human heart and it has wrecked and ruined not only individuals but nation after nation has crumbled in the dust for no other reason than their heart-felt selfishness.

I told our many readers I would explain how the man rode the horse across Nebo bridge but yet he walked. You see the man had a little dog named "Yet." He walked while the man rode over the bridge.

Angry Germans mob U. S. Army trains. I thought America whipped the Huns and killed Hitler. The incarnate devils overseas sure love to scrap and storm.

Henry Wallace, a third party pig killer has this to say about Truman if Truman enters the race for President in November: "He won't have the chance of a snow ball in hell." Neither will Hen have a chance to drown any more of our little pigs and mill our wheat in the ocean. That's what sent meat up to nearly a dollar a pound and flour to \$10 a sack. I don't believe Henry Pig Killer will get any votes in the South.

Many old men think women can't be trusted too far while women think men cannot be trusted too

near. They as a rule are always nearer correct than man. Men are more selfish and hellish, too.

Well, our long time friend Andy Newton is retiring from his long-time job in the courthouse. 22 years keeping the records so straight and perfect no one will ever beat brother Andy. He's one of the county's best men we all agree. Andy's going but not forgotten. Few men have a finer record than Andy Newton.

Oh, Lord, there are so many dignitaries in the good old U. S. A that try to rule the earth 'till a poor man like you and I don't get a square deal. A dollar for a steak and no fat to cook it in—I call that rare steak if steak at all, bud.

Why is it the more we do for our own people or any other people the less they appreciate our efforts? It looks like to me in this good age we are educating all the people that care for knowledge. Finally it looks to me like everybody for self and the devil for all outright selfishness. It shows up not only in men and women but in every type of similar birth as well.

The Jews and Arabs are still doing it. Doing what? Fighting. The seven nations of the Arab League have an area nearly 150 times the size of Palestine. No wonder the hell-cats fight. Why people of all ages fight. They want what the other fellow's got and try to take it by force. The North forced the South to lay down its arms and go home in rags.

A lady, oh I reckon she was a lady got smart and asked me how come that spot on my head in my picture in the paper. I told this outstanding lady that was where my wife hit me on the head with the poker. Ask me another one. I mean to have a better looking picture to head my column soon. You say, oh, it couldn't be any worse. It's not the first time I've showed my face in newsprint.

Well, the old Ground Hog come out and got his annual sun bath. Look out for more bad weather. In closing today's session let me say I'm glad I wasn't born a fool. So long.

I never thought I'd be a poet. Days will come again when flowers will bloom.

When the earth from ice and snow is free; When days are sunny and nights are warm. Then Old Man Winter can't do us no harm.

Now the roads are muddy, And the streets are frozen hard, But soon the sun will shine, And the birds will sing sublime.

### Plymouth First With Super-Cushion Tires

DETROIT. — First in the lowest-priced field to offer the new, larger lower-pressure super-cushion tire as standard equipment, Plymouth division of Chrysler Corporation today revealed that its 1943 models are now rolling off the production line equipped with this new post-war tire.

Introduced last fall, on the higher-priced Chrysler Corporation cars, the new tire brings marked advantages in comfort, safety and economy. R. C. Somerville, general sales manager, Plymouth, pointed out.

Using an increased air volume with pressure reduced to only 24 lbs gives a softer ride with less fatigue from vibration and shock caused by road inequalities, Somerville stated. Faster and surer stopping, and reduction of blow-out danger stemming from the fact that the new tire runs 15 percent cooler, are major safety points which combine with the Plymouth new, wider safety-rim wheel to reduce hazards from tire failure. Economywise tests show the new tire to give one-third more mileage than pre-war tires, Somerville added.

With initiation of investigations on tobacco, the USDA now has under way first-hand, intensive studies of opportunities to enlarge or to open new outlets for exports of cotton, tobacco, fruits and true nuts.

We believe that

# CLEVELAND

## HIGH-PROTEIN STARTING MASH

will give you stronger, healthier chicks when fed for the first two weeks.

The cost is not a great deal more than ordinary starting mash and in our experiments we have had three pound birds at eight weeks.

## Eagle Roller Mill Co.

Shelby, N. C.

# Congratulations

To

# Reynolds Motors

which is holding its formal opening  
SATURDAY as  
**New Dodge-Plymouth Agency**  
for Kings Mountain

We were glad to have had a part in supplying many of the materials which went into this firm's modern garage and sales showroom.
