Do Profits Rook You?

Profit is a word that folks must utter today only in whispers. In fact, it is a nasty word, the way most people use it. And this is a pity. Actually, the word has in it a great measure of progress and once meant the results of that which was "proficient," or usefully productive. But folks today have twisted their ideas on profit around so that the word indicates to them the ability of business to take advantage of somebody, especially the worker.

Our economic processes are interesting and exciting when you understand them. Without properly understanding the ways of money, trade, and commerce, an unthinking person can become a dupe for every ISM that Dr. Utopia has to offer. It is amazing to me that I find young people and a few old ones, too, so taken in by glamorous ideas that have no basis in fact. Some of these folks dream that profit is loot. They look at profit as lacking in morals and as the worst kind of sin.

Work and Progress

The thing that is directly responsible for human progress and human welfare is work. Work is human energy. Without work, and without the pay that people get for their human energy, progress would be at a standstill. But, there is something else. The tools, the factories, the land, the buildings—all the things men use in drawing upon their human energy—these things are simply human energy stored up for use.

Workers Like Profit

Payrolls and profits: these two items are vital to the well-run business enterprise. Nearly everybody understands already how important payrolls are to the welfare of our economic community. But not nearly so many people understand that profits also are necessary. In fact, it would be impossible to have good wages without correspondingly high profits. Then, a worker whose company makes a profit is well-blessed indeed.

Why is that so? Only a business that makes healthy profits can offer steady, good-paying jobs to the community. Only a company that makes sufficient profit can buy modern tools and replace worn-out ones. What worker does not like to operate good machinery? Only a business that makes good profits can afford to plan and to expand its facilities. In other words, all workers who think right about it would want an employer to make good profits.

How to Prosper

Many workers think that wages are paid out of profits. This is not so. Money for the work comes right out of sales and goes directly to payrolls, just as money for profit comes out of sales and goes for the use of tools and the replacement of tools. When profit is high, the chances are that wages will be good. This is nearly always true unless taxes come in and take too large a chunk, or unless the company is so much in debt that profits cannot be used for new tools.

If I were an employee of a company or working in an industry, I would be very much concerned that my employer makes a profit. I would do all I could to make a profit for him. Knowing that my chances of having a good job and of growing with the company would depend upon the success of the whole enterprise, I would work hard to keep my employer "out of the red." Then I would know that my efforts really are building a greater America.

Navy Closed To New Recruits For Week

Charleston, S. C. — The Navy, as of Monday, closed enlistments to new recruits in the regular service for one week.

The action, announced through the Sixth Naval District Headquarters, was taken according to Captain Richard E. Hawes, USN, Inspector of Recruiting, because of the present congestion in the naval training stations.

The Navy will continue to re-enlist men now serving or those who desire to get back into the service, the one-week ban being effective only for new recruits.

Plastics will soon be used as a stiffener in felt hats, according to the Lee company, Danbury hatters.

Presbyterian Hour Will Feature Fulton

The speaker on the Presbyterian Hour next Sunday will be the distinguished Moderator of the Presbyterian Church in the U. S., Dr. C. Darby Fulton. The program will be heard from the sanctuary of First Presbyterian Church in Atlanta, Ga., where Dr. Fulton was elected and where he moderated the sessions of the 88th Assembly. The music will be furnished by the choir of that church under the direction of Dr. Charles Sheldon.

Dr. Fulton was born of missionary parents in Kobe, Japan. He was educated at Presbyterian College in Clinton, S. C., at the University of South Carolina, and at Columbia Theological Seminary. He did post-graduate work at Princeton seminary, was awarded the D. D. by his alma mater, Presbyterian College. After a short pastorate in New Jersey, he went to Japan as a missionary. In 1925 he was called home to become field secretary of the Assembly's Foreign Missions Committee of which he became Executive Secretary in 1932. He has served as a trustee of Hangehow Christian College and of Nanking Theological Seminary, is a member of the Executive committee of the Committee on Co-operation in Latin America and in 1939 was chairman of the Foreign Missions Conferences of North America. His topic will be: "Christ, the Only Answer to the World's Need."

This program will be heard over radio station WSOC, Charlotte, Sunday at 8:30 a. m.
