### Big Rush Was On To Reinstate NSLI

Approximately 16,500 World War II veterans living in Virginia, Maryland, North Carolina, West Virginia and the District of Columbia reinstated more than \$107,000,000 in lapsed G. I. Insurance policies between July 23 and August 18, the Veterans Administration said today. The big rush to get lapsed policies back in force was attributed to the July 31 deadline for easy reinstatement. Prior to that date, most veterans could reinstate "idle" policies by paying two monthly premiums and submitting a simple health statement. Those whose policies have elapsed less than three months may still reinstate by the easy method, but others are required to take a physical examination. Veterans who find it necessary to write to the Veterans Administration are urged to provide full information about themselves in order to "help the VA give better service."

In writing to the Veterans Administration, VA officials cautioned ex-servicemen, "give your full name and present address—and write plainly. If you have a claim or insurance number, write it down. If not, give your service number. This is one of the best ways to avoid unnecessary delay and disappointments."

Q—What is the difference between term insurance and converted insurance?  
A—The protection in event of death is the same, but converted insurance accrues cash, loan and paid-up insurance values, whereas term insurance does not.  
Q—I find that the course I am taking under the G. I. Bill is not what I expected it to be. Can I change by course to one that will meet my requirements?  
A—Yes, providing you have VA's permission to do so. Whenever the facts in the case indicate that a change will be to your best interest VA will grant authority for the change.  
Q—I have been working in a garage and now have an opportunity to buy a share in the business. Can I use my loan guaranty rights to acquire an interest in the garage?  
A—Yes. Such a loan would be eligible for guaranty under the Public Law, (G. I. Bill.)
