Get These Tire Features MOST WANTED by MOST PEOPLE

"N.C.L.? Maybe for other things, but not B.F.G. Silvertowns." With all the sky high prices on food, clothing, fuel and even other transportation costs, Silvertowns with wider, tougher money-saving "road level" treads actually cost less per mile than prewar.

"There's my STOPPER! It's the wider "Road Level" B.F.G. Tread!" The wider, square-riding Silvertown tread puts more rubber in contact with the road at all times — more rubber to start and stop — to share the load, to wear longer, to give longer non-skid safety.

"Big Trade-in for your present tires. That's what everybody wants." The unused miles in your present tires are worth more to us than they are to you. We have a market for reconditioned, and Durecapped tires. \$1.50 Down \$1.25 a Week That's why we can allow you more. Puts a New Silvertown on Your Car

"They're so quiet! They make long drives more restful." B. F. Goodrich engineers' disturbing growl and road hum right out of B.F.G. Silvertowns. That's a feature auto engineers are quick to recognize — and one that women prefer.

"I'm Safety-Minded!" ... And if you are, like so many others, you'll be quick to spot the extra blowout safety from a 30% stronger cord body made up of more and finer, stronger cords per inch, and the extra resistance to road shock from the double shock absorbing cushion layers under tread.
