

SPORT SHOTS

BY CHARLES CARPENTER

Installment 6. "Sportsmanship—Whose Responsibility?"

Responsibility Of The Faculty Manager

The faculty manager is frequently not closely associated with the team. He is, therefore, in much better position to talk to officials, sports writers, and spectators than is the coach. At times "straight-from-the-shoulder" talk is necessary to arrive at a clear understanding of the kind of behavior wanted and expected in terms of the values we are trying to realize. His greatest opportunities seem to be found in his contacts with officials, press, and faculty managers of other schools.

Specifically the faculty manager should:

1. Provide the opponents with an opportunity to help choose officials, which are completely satisfactory to both parties.
2. Hire the best officials which can be obtained.
3. Set aside enough money to pay well for an officiating job well done.
4. See that there is sufficient and—
or police supervision to discourage unruly behavior.
5. See that all students have a definite understanding of the kind of behavior expected of them.
6. Try to promote friendly relations with the press and "suggest" that articles be written in such a way as to emphasize proper values.
7. Feel obligated to help increase crowd understanding of rules, penalties, strategies, and encourage wider sports appreciation among the spectators.

The faculty manager should not:

1. Schedule opponents where traditional rivalry has reached such a point that unruly crowd behavior has come to be accepted as a matter of course.
2. Hire officials who call fouls inconsistently, permit the game to get out of hand, or in other ways encourage a noisy, unruly crowd.
3. Promote the idea that winning is all-important.

The Responsibility of the Athletic Director

It is assumed that the athletic director is in direct charge of the athletic program. It is pretty well established that, in the long run, the departmental staff and policies will reflect the kind of philosophy held by the departmental head. The general policies of the athletic department—the overall picture—will be determined in a large degree by the leadership displayed at the top. If mere lip-service is all that is given to a certain cause, it becomes evident in short order.

Specifically the athletic director should:

1. Hire competent officials for all athletic events.
2. See that adequate care is taken to handle crowds.
3. Print some of the more common rules, regulations, or scoring methods.
4. Arrange schedules, with close cooperation of the coach, with teams in the same class.
5. Play schools with like standards.
6. Find ways and means of bringing students, leaders and groups to see and help in the problem of crowd control.
7. Have only competent and fair men to handle loud-speaker systems.
8. Cooperate with cheerleaders in the sportsmanship problem.
9. Arrange for student assembly or departmental demonstrations on rules and rules interpretations.
10. Present a true picture to the

press of the common problem and make some suggestions of a worthwhile nature.

The athletic director should not:

1. Second-guess officials for crowd effect.
2. Hand out a lot of "confidential stuff" to create a crowd-drawing story, or create false impressions just to pack the stadium to see the "fight."
3. Be too conspicuous at athletic events.
4. Publicly criticize rival schools.

Next week—"The Board of Education and Press and Radio."

Aviation Cadets May Finish Flight School

Former members of the Air Force whose training as pilots was cut short at the end of the war now have an opportunity to complete their education as Aviation Cadets, Sgt. Kelly of the Shelby recruiting station announced today.

Because of their experience, he said these former servicemen will be exempt from the Aviation Cadet qualifying examination and the personal interview. The eligibility requirements are the same as for other applicants.

They must be between the ages of 20 and 26 1-2, have two years of college education or the ability to pass an equivalent examination, and have high moral, personal, and physical qualifications. Both married and single men are now eligible.

"Thousands of young men were appointed Aviation Cadets and were in various stages of flight training when the wartime program was terminated Sgt. Kelly declared." If any of these men now are living in Kings Mountain and are interested in winning their pilot's wings and a commission in the Air Force, they should write directly to Headquarters, U. S. Air Force, Washington, D. C. (Attention: Aviation Cadet Branch) for information about reinstatement as Cadets."

These wartime Cadets will take all phases of Aviation Cadet training regardless of their previous program, the Sergeant explained, because of advancement in the program since the war.

The Cadet Program includes 12 months of flight, academic, and military training. Graduates receive pilot rating, a Reserve commission as a second lieutenant in the Air Force, and an assignment to three years of active duty at a salary beginning at approximately \$4,000 a year.

Outstanding graduates receive a Regular commission immediately. All graduates have an opportunity of qualifying for Regular Commissions while on active duty. The next class starts April 4, said Sgt. Kelly.

An important milestone in the production and widespread use of Diesel engines was reached in March, 1948, when the manufacture of the 250,000th General Motors Series 71 Diesel engine was announced by the Detroit Diesel Engine Division. The quarter of a million Diesels produced by this one factory represent over 40,000,000 horsepower; four times the total Diesel horsepower that was in existence in the USA in January, 1938, when the Division started operations.

RAMBLING SKETCHES OF Oak Grove News

By Mrs. William Wright

(We youngsters are still pinch-hitting 'cause mother is still in Florida, H. S. pushing the pencil.)

Mr. William Randall and roommate William Laurence of Mars Hill college were the week-end guests of Mr. Randall's parents, Mr. and Mrs. A. T. Randall. Bobby is transferring from Mars Hill to Gardner-Webb.

Mr. and Mrs. C. G. Davis and daughters were the Sunday dinner guests of Mr. and Mrs. Norman Davis of Kings Mountain.

Miss Anne Childers of Kings Moun-

tain was the weekend guest of Miss Betty Lou Philbeck.

Mr. and Mrs. Henry Kiser and daughter of Cherryville were weekend guests of Mr. and Mrs. Lyman Champion and family.

Mrs. J. S. Ware was the Monday afternoon guest of Mr. Elmo McKinney of Shelby.

Mrs. Cynthia Lovelace of Patterson Springs is spending a few days with Mr. and Mrs. Monroe Lovelace and Mr. and Mrs. J. W. Wattersen and family.

Mr. and Mrs. Edward Kell of Shelby, route 4, were the Sunday afternoon guests of Mr. and Mrs. Jonas Bell.

Mr. and Mrs. W. F. Stone, Jr., and

Billy, of El Bethel, were the Sunday dinner guests of Mr. and Mrs. F. C. Ware and family.

Mr. and Mrs. Odell Barrett were Sunday afternoon guests of Mr. and Mrs. Frank Ledford.

Mr. and Mrs. K. B. Ledford had as their Sunday dinner guests Mr. and Mrs. Woodrow Ware of Patterson Grove.

Mr. and Mrs. C. G. Davis and family were Wednesday dinner guests of Mr. and Mrs. Herschel Davis and family of Beulah.

Mr. and Mrs. Zeno Green of Gaffney were Sunday afternoon guests of Mr. and Mrs. J. N. Philbeck.

Mr. and Mrs. Edgar Bell announce

the birth of a daughter.

Mr. and Mrs. Paul Bell were the Sunday dinner guests of Mr. and Mrs. W. A. Bell.

Rev. C. C. Crowe was the Sunday supper guests of Mr. and Mrs. J. D. Bell.

Mr. and Mrs. Fred Lovelace of Kings Mountain were the Sunday guests of Mr. and Mrs. T. C. Ledford.

The hairspring used in the new electric automobile clock produced by Deco Appliance Division of General Motors is made of the same material as used in the finest navy chronometer.
