The most important thing in this store is something you'll never see

IN YOUR pharmacy you see many things that are important to you and your community. You see a wide variety of attractive merchandise . . . shelves lined with important drugs, chemicals and other medicinal products. You see the pharmacist himself, a friendly person, a reliable merchant, a good citizen. But there's one thing you'll never see—and, in a sense, it's the most important of all. What is it? It's your pharmacist's professional knowledge and technical skill. To get his college degree and to pass the state examinations required of all pharmacists, he must have a knowledge of many sciences. He knows thousands of different drugs—their dosage, usage and properties. And he has the practiced skill to compound them into the medicines your doctor prescribes, the medicines needed to help you guard your health. Get better acquainted with your pharmacist. Trade with him—he's a man you can rely on. — Reprinted from a copyrighted advertisement published by Parke, Davis & Company, Detroit 32, Michigan.
