Spring Symphony Theme Of Program

"Spring Symphony" will be the theme of the program for the meeting of the Woman's Club at the club house Friday at 8 p. m.

The program is being arranged by Mrs. W. L. Pressly. It will carry out the symphony idea in that the program will be presented in four parts.

The concluding part will be the story, in rhyme to music, of a bride and her flower arrangements written by Mrs. Pressly. The following club members are making arrangements: The Bride's first family lunch, Mrs. H. C. Mayes; the Bride's formal dinner, Mrs. J. L. McGill; arrangement of foliage or vines, Mrs. Luther Cansler; arrangement of wild flowers, Mrs. Otto Hehn; the bride's table, Mrs. Mac Gantt; the Groom's stag supper, Mrs. W. L. Pressly; the Bride's Hat by Bill Dache, Mrs. E. W. Griffin.

The bride for the evening will be Ann Mayes.

The accompanist for the musical reading will be Mrs. N. F. McGill.

Ace Of Clubs Meets With Mrs. W. R. Craig

Mrs. F. M. Fryer and Mrs. C. T. Carpenter, Jr., were invited to play bridge with the members of the Ace of Clubs last Thursday afternoon when Mrs. Bill Craig delightfully entertained at her attractive home in Crescent Hill.

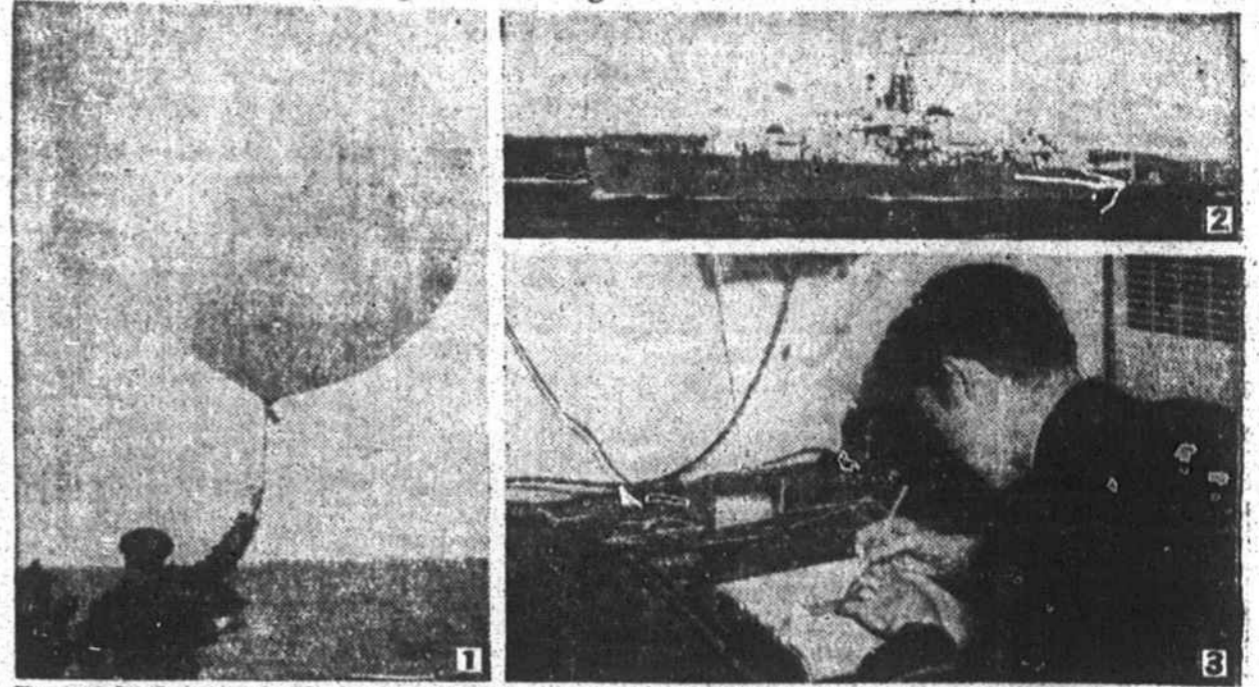

The home was lovely with its setting of spring flowers. A dessert course consisting of strawberry short cake and fruit punch was served before the progressions began.

Mrs. H. E. Lynch carried off high honors with Mrs. W. K. Mauney winning second high.

G-E Students Have Picnic At Lake

One of the highlights of Saturday afternoon was the picnic given at Lake Montonia by the Kings Mountain students at Gardner. Seventy-five students from the college chaperoned by Coach Fryer and several other teachers enjoyed boating, swimming and other pastimes after which a picnic dinner was served.

Doing Something About the Weather

Far out in the stormy North Atlantic Ocean seamen (1) aboard the Canadian weather ship H.M.C.S. St. Stephen, prepare to release a radio-equipped balloon which will radio back reports on weather conditions in the upper atmosphere. The St. Stephen (2) is one of 13 weather ships, supplied by eight countries and financed by 16, which make up a network arranged by the Inter-

national Civil Aviation Organization (ICAO), a specialized agency of the United Nations. The ICAO weather ships are on constant duty, ready to radio passing aircraft late weather information, and to participate in search and rescue operations. A specialist (3) maps weather data coming from a weather balloon and prepares it for broadcast to passing planes and shore stations.

Patterson Grove News and Comments

By Mrs. Thurmon Seism

Home, the place we leave for vacations, but find ourselves always eager to return. Home, the place we love, and we dare to fight to preserve it.

Rev. J. U. Teague brought a timely and wonderful message Sunday. The three important pillars, The Home, Mother, and Church. If you missed this you missed a great blessing. The Home is the world's oldest institution. Does your Home have a family altar? It is known that where altar fires burn Christ is honored. Problems will melt in a warm atmosphere of prayer. Many times we run

ahead of God in our planning. It is still wise to follow the injunction, "Be still, and know that I am God."

Rev. J. W. Suttle was guest Sunday at Patterson Grove and made a short talk after lunch.

Teacher's meeting will be Wednesday night at 8 at the church and every Wednesday thereafter until further notice.

B. T. U. and B. A. U. will meet Sunday at 7. Preaching service will be at 8 o'clock.

Mrs. Win. Huskey and Mrs. James Hick are still on the sick list.

Mrs. Dovie Moore, Mr. Edwin Moore and daughters, Gene and Janice, visited relatives in Virginia over the weekend.

Mr. C. T. Skidmore and some of his workers visited with the Patterson Grove B. T. U. Sunday.

The United States built the first submarine ever to be employed in war in 1776.
