

Jerry McCarter Wins Wake Forest To Play Goforth Medal

Jerry McCarter of the fifth grade won the I. B. Goforth Medal. The contest was held Wednesday, May 25, at the West School.

The title of Jerry's declamation was "Jefferson Davis." Second place was given to Jimmy Heavner of the fourth grade, who gave "Respect The Flag."

Fifteen boys entered the contest.

Glass fiber is the oldest non-cellulosic synthetic fiber. Its production began about 1936, but output during the first few years was limited.

The Wake Forest College Southern Conference championship baseball team will move into Charlotte Monday, June 6, to pitch camp for a series of at least five ball games. On Monday night, the Deacons will play the strong Highland Park team at Griffith Park and on Tuesday night Mt. Holly's Superior Mill team will meet Wake Forest at the same park. Both games will begin at 8 p. m. After resting on Wednesday, the Baptists will meet the University of Kentucky in the second game of the Southern College championship baseball tournament at 8:30 p. m. On Thursday June 9 at Griffith Park.

Then the Deacons will play tournament games on Friday and Saturday.

The other select teams from the Southern and Southeastern conference are the University of Richmond and Mississippi State College.

Tickets are on sale, \$1.25 for reserved box seats and 75c for grandstand seats. Mail orders to Box 123, Charlotte.

Field Office Located To Serve Community

The local office of the Social Security Administration, Gastonia is one of many such offices located throughout the United States, according to Manager Nottley Maddox. These field offices, she continued, are a part of a Government insurance system set up by the Federal Government to assist qualified persons, their dependents, and their survivors to apply for the money benefits due them under the social security laws.

The local office, like others in the nation, was established and is maintained to serve the community in which it is located, and the surrounding area. The people who work in these offices are selected and trained with the single purpose in mind of serving the community in every way possible in matters concerning social security rights, laws, and regulations.

Miss Maddox then listed some of the specific functions of her office such as: assisting qualified persons to apply for the benefits due them; assigning social security account numbers to persons entering employment for the first time; issuing duplicate social security cards to those who have lost their original cards; and investigating wages reported in correctly or not at all.

Keeping people informed of their rights in the whole social security program, is another important function of her office, Miss Maddox continued. Some of this work is accomplished by talking with people, who visit or telephone the office, through the cooperation of the press and radio stations, and in speeches made by staff members before schools, labor or other groups. "We like to talk about social security," said Miss Maddox, "and will be glad to furnish a speaker at any time for groups interested in learning more about old-age and survivors insurance."

The Gastonia Social Security office is located in Post Office Building, and telephone number is 54611.

About 70 percent of the nation's farms are electrified today as compared with about 10 percent in 1935, when the Rural Electrification Administration was set up.

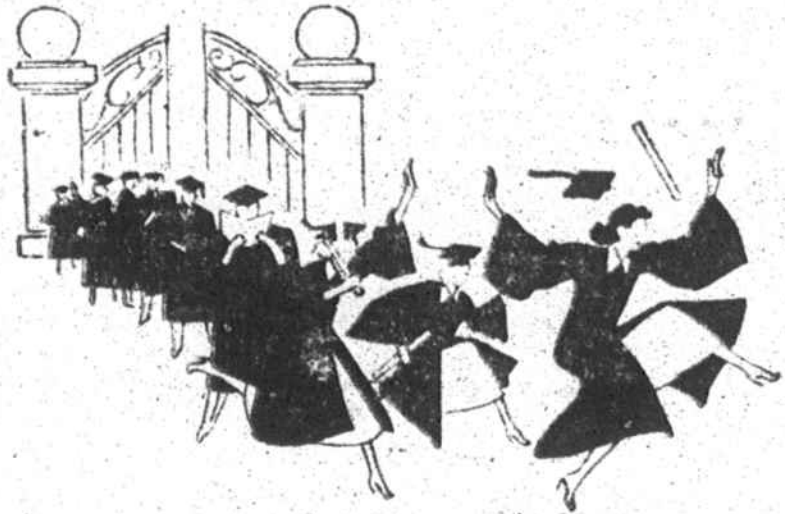

Domestic production of oil from tung nuts, which began in 1933 with an output of 150,000 pounds, has now reached a total of about 17 million pounds yearly.

About 4,100 acres of early summer green peppers are being grown in North Carolina this year — about 21 percent more than the 3,400 acres harvested in 1942.

Wildlife disease has caused serious losses in burley tobacco beds in several western counties of the State including Haywood, Buncombe, Madison, and Yancey.
