Meat production under Federal inspection for the week ended May 21 totaled 259 million pounds, according to the U. S. Department of Agriculture.
European crop conditions, as of mid-May, continue to point to a total crop production below that of the favorable 1948 season but considerably above that of the drought year 1947.

Uncle Sam Says
Flag Day, June 14, holds significance for every American. Under the waving Stars and Stripes each citizen knows that he still possesses the most cherished of all ambitions—freedom and opportunity. He also knows he can retain these just so long as our country is economically sound, and he knows too that one of the most effective methods ever devised to keep it strong is an investment in U. S. Savings Bonds. Your purchase of Savings Bonds strengthens not only your own economy but your country's as well. If you are not now enrolled for the Payroll Savings Plan where you work or, if self-employed, the Bond-a-Month Plan at your bank, now is your BIG CHANCE to start.
