Herald "House-of-the-Week"

THE BUXTON is planned for three bedrooms, a living room, a combination kitchen and dinette and a full basement. Closets are plentiful and convenient. There is a coat closet at each entrance, a broom closet in the kitchen, linen closet in the bathroom and a closet in the hall. In addition the bedrooms all feature wardrobe type closets.

All rooms open into the hall for easy circulation. The living room is entered through the vestibule with a fireplace situated flush against the end wall. There are four large windows with ventilators placed underneath.

Plans call for the exterior of The Buxton to be brick veneered, while the gable ends are to have wide siding finish. The simple roof is covered with asphalt shingles and extends over the stoop for the protection of the front entrance.

Overall dimensions are 40 feet 8 inches by 28 feet 8 inches. Area is 1,126 square feet and the cubage is 21,957 cubic feet.

For further information about THE BUXTON, write the Small House Planning Bureau, St. Cloud, Minn.

FOR SALE: 3-piece maple bedroom suite. \$89.95. COOPER'S, INC., Phone 93. m-3.

Sweet whey, a dairy by-product rich in food value which is often wasted or otherwise utilized inefficiently, can be used successfully in the commercial manufacture of bakery goods, says USDA.

Milk production records from dairy-herd improvement association herds suitable for paving slabs were reported to the Bureau of Dairy Industry at the rate of about 1,500 a day in 1949, or for a total of 374,456 records for the year, the U. S. Department of Agriculture has announced.

Soil erosion removes 66 tons of soil per year from an acre of bare land. Only three-tenths of a ton is lost per year from an acre of pasture sodland.

A total of 1,030,319 motor vehicles were registered in North Carolina during 1949.
