them, a combination kitchen - dining room and a full basement. The living room contains a projecting picture window with a twelve inch ledge and overhanging eaves. The exterior is finished with wide siding and an asphalt shingle roof.

The bedrooms have wardrobe closets with overhead storage space. The linen closet is next to the bathroom and there are additional closets in the living room, kitchen and bedroom hall. The overall dimensions of The Burton are 28 feet by 28 feet with a floor area of 784 square feet. There are 15,288 cubic feet, including the basement.

For further information about THE BURTON, write the Small House Planning Bureau, St. Cloud, Minn.

THE BURTON has a square floor plan, but this small house, because of its low pitched gable roof and projecting bay window, does not appear to be square when looked at from its deceptive exterior. The Burton features a comfortable living room, two bedrooms, with bathroom in between
