

H. Y. Belk

AND HIS NEWS OF NEBO VALLEY

I was very sorry I didn't get to attend Grace church dedication the first Sunday. I would of loved to have heard Rev. L. B. Abernathy preach. He taught me in his classroom at Rutherfordton College. I was at his wedding when he married one of my school mates, Miss Walker. A grand old man is Professor Abernathy. He is the only living teacher that ever taught me. He is past 84 but young in spirit. Only three boys, all professors: W. E. L. B. and A. T. Preachers too. So was father R. L. Abernathy.

That's why we begin a World's third War.

We wonder what's on the Moscow mind Dear Joe? Russia seems to have infested in lots of people all over the world with a zeal to fight for the spread of this damnable being sent all over the globe to fight against spreading hell born stuff, while Moscow with her 7 million of slaves hang around Joe's shirttail and grows stronger. It's a fool fight for Free Democracy. Just because we are feeding the outside world and clothing their naked backs is no reason they will ever accept our Free Democracy. Did Russia accept our gifts when Germany was beating hell out of Moscow? Joe Stalin got on his knees and fooled Uncle Sam out of a million

in war materials. We, they were afraid to try to plead with Dear Joe to restore the joot he half way stole. Now he's fighting for more. Go to hell Joe. We Americans must teach other nations that we are fighting for a free Democracy for the world. The Better Way of Life for all enslaved people. Are we trying to convince other nations that the Democratic system is best for all mankind? We should examine that system of better living very carefully to keep it Democratic. So many people have never known nothing but despotism of one form or another. Its hard to convince inbred heathens to our Better Way of Life. It will take a lot of human sacrifice and blood to ever make the world safe for Democracy.

I was just meditating about how smart people are getting. They can forecast how many will get knocked off on Labor Day. Waybefore Labor Day gets here. I just wonder why they could tell that 24 would be knocked off on the highways of N. C. on Labor Day. They didn't give the names of all those who were to be salted away. I don't see nothing so nice about getting killed in a rattle trap made of scrape iron. That's the last big time you'll have on the ground. I sure won't get killed off on one of these big days. You wouldn't get my goat. When I remember all those folks could stay home and go fishing and not be brought in dead. Ain't no good in a dead man, 'cause he's gone a long time. Who knows where One thing sure, he or she, or those who kick the bucket don't get back to molest the living. Its a fool business sailing out over the highway just to beat the other fellow. If you will drive your trap like the Devil wants you too, I'll be darned if you don't soon be with Old Satan. He will welcome all and he don't live in Moscow. He couldn't stand old Joe. Dead 565. Oh Well!

Our Ship of State is on the Sea of Socialism and from what Russia says it would seem that hell is just around the bloody corner. Better wake up Harry, something rotten not far up the branch. Better look before you leap, Joe's on the war-path.

A correction in my article some weeks ago. What I said about Presidents, the paragraph concerning Harrison should have read: Benjamin Harrison and William Henry Harrison were grandfather and grandson, and William Henry Harrison died 30 days after taking the oath of office for President. As Franklin D. once said, the Lord planned it that way. Why should we call the New Deal the Emergency Party. We have been in one emergency after another since the first World War, emerging to get in a bigger war. A war that will

Wilmington Junior Dairy Show Set

Southeastern North Carolina will hold its first annual District Junior Dairy Cattle Show at Wilmington on October 12-13, it was announced this week by J. A. Arey, in charge of dairy work for the State College Extension Service.

Boys and girls of 19 counties will be eligible to enter animals in the event. The counties are, Bladen, Brunswick, Carteret, Columbus, Craven, Cumberland, Duplin, Harnett, Jones, Lenoir, New Hanover, Onslow, Pamlico, Pender, Robeson, Sampson, Scotland, and Wayne.

All breeds of registered dairy cattle may be shown, but no bulls may be entered. Only two classes of grade cattle will be admitted - six to 12 months and 12 to 24 months of age. The grade animals should show definite characteristics of one dairy breed.

The Danish system of judging will be used. Ribbons will be awarded following the judging of each class.

All animals should be in the show barns by 5 p. m. Thursday, October 12. Purebred animals must be registered in the name of the exhibitor or his parent or guardian, and in all cases the exhibitor must have personally fitted and cared for the animal 30 or more days prior to the show. No exhibitor may enter more than two animals, nor shall the exhibitors from any one family or institution enter more than six.

Further information may be obtained from farm agents in the counties concerned.

spread far and near. An honest man is the noblest work of God. A lying rascal is the Devil's greatest chum. I'll pay you Saturday. Why he knows he is a liar from the beginning. I hope I learn better soon, but they say it is clever and kind-hearted, you know they can't lie, but you wait a week or just two. I be darned if you don't change your mind. Beat and beat until it is no crime. They may beat me right on, but see I'm going to rest while before they tie to me.

When you loan these bums money they become your enemies. We buy their ingratitude. Don't come to me seeking a loan. Go to the bank and run your face. You can get what you want, if you want it bad enough to pay it back. An honest man, I repeat, is the noblest work of God, but they are not so few. Lots of honest women, you may find.

We just can't end this session's broadcast without appealing to our readers to ask why the Republicans mental telepathy has been working backwards for more than 18 years. I want Mr. Harry Truman to explain this to us. For the average person, it is stumps. A nice man with more understanding asked me, "Do Democrats cause wars? I said yes. Republicans don't have a chance. Are all Democrats saps-heads? I said no. Are all Republicans? I said no. Dewey was a great manover New York. The Baptists love water, but not to sprinkle on - too slow a way. Presbyterians love money in a bag. The yhold on. Methodists, the ylove chicken and all kinds of fowl. Turkey too.

They tell us President Harry Truman starts his day's work around 4:30 a. m. I know there must be something wrong with that job. So few ever tried to get it. Women got better sense than to want it.

An Autumn in the breeze, I love the Autumn crisp, Cool frosted kissed morns, I love its soft evening haze, That the landscape drapes, Of its ripening fruits, I love the passenger flight, Of the birds as they fly southward,

I love its sunset mellowed gold, Painting beauty no artist Hand can ever scroll, I love its fireside cheerful evening glow, With all the Autumn cooling, Soothing peace I know,

The Ladino clover from one acre contains twice as much phosphate and calcium and more than three times as much potash as does the lespedeza from one acre, say scientists of the North Carolina Experiment Station.

Live At Home

By Henry Darneton

Hay and pasture go hand in hand in a good livestock program. First emphasis should go to permanent pasture, but the need of producing an abundance of good legume hay should not be overlooked. Lespedeza has been our main hay crop, and still should remain the source of much of our hay.

With the addition of more cattle to the farms, there is a need for hay crops that will produce higher yields than lespedeza. Alfalfa has proven, so far, to be the best legume to give high yields and, at the same time, a high quality legume hay. Alfalfa, given proper treatment, will yield better than three tons of hay per acre each year. This high yield will cut down the number of acres needed for hay crops, allowing more land for other crops.

In seeding alfalfa, a little extra time should be taken in preparing the seedbed to have a well pulverized, but firm seedbed. Alfalfa should be sown on land that has good drainage, and with a high level of fertility.

Lime is required on all of the soils in Cleveland County for grading alfalfa. 1 1/2 to 2 tons per acre should be sufficient on most soils. In addition to the lime a heavy application of manure would be helpful. 700 to 1,000 lbs. or 2-12 12 fertilizer with borax added should be applied to the land prior to or at time of seeding.

Before sowing the seed, be sure that the fertilizer, lime and manure are mixed thoroughly in the soil and the land is as smooth as possible. Then finishing touches may be made with a cultipacker or a harrow and a log. Once the seedbed is prepared, sow about 30 lbs. of seed per acre, covering with a cultipacker or harrowing it lightly with a drag, harrow. Inoculation of alfalfa is necessary. Failure to inoculate may mean a complete failure.

Wake County's 1950 turkey crop will be only about one-fourth as large as its 1949 crop, according to estimates by L. W. Herrick, Jr. turkey specialist for the State College Extension Service.

Archdale Cows Set Records

PETERBOROUGH, N. H. — Two registered Guernsey cows, owned by Neisler Mills, Inc., Kings Mountain, N. C., have completed official Advanced Register records that were supervised by the North Carolina State College and reported to The American Guernsey Cattle Club for approval and publication.

On three times daily milking for a ten-month period, Archdale Maxim's Ideal Ann produced 10,727 pounds of milk and 562 pounds of butterfat, starting her record as a senior 3-year-old.

As a senior 2-year-old on three times daily milking for a ten-month period, Archdale Maxim's Ideal Louise produced 9,306 pounds of milk and 500 pounds of butterfat.

Both of these cows are the daughters of the registered Guernsey sire, Traxler's Ideal's Commando, that has six daughters in the Perfection Register of The American Guernsey Cattle Club.

More than 200,000 forest, woods and range fires occur in the United States each year.

Venetian Blinds & Repairs

Our Venetian Blinds are all - metal, with solid ladder - woven tape or plastic tape. Choice of colors in tapes and slats.
