Childers-Goforth Wedding At Gaffney

Mrs. Blanton Fêtes Fortnighter's Club

Mrs. C. D. Blanton entertained Friday evening at a bridge party for members of the Fortnighter's club. The home was decorated with arrangements of zinnias and mixed flowers.

High score was won by Mrs. Sam Davis.

A delicious salad course was served during the progressions.

Mrs. Goforth is the daughter of Mr. and Mrs. S. T. Childers of Kings Mountain.

The bridegroom is the son of Mr. and Mrs. Frank Goforth of Grover, where both the bride and groom attended school. At present they will make their home with the bridegroom's parents.

Tests conducted by the North Carolina Experiment Station show that oats seeded in early October produce yields twice as high as those seeded in mid-November, according to W. H. Rankin and G. K. Middleton, agronomists for the station.

Nitrogen should be applied to small grain between February 15 and March 15 for maximum results. The suggested rate is .30 pounds per acre, which can be obtained from 188 pounds of nitrate of soda, 150 pounds of Cal-Nitro or ANL, or 94 pounds of ammonium nitrate. Top-dressing after March 15 is too late to get maximum number and size of seedlings.

In the tests, seedings made between October 1-15 produced 59 bushels per acre, while seedings made on November 15 produced only 30 bushels.

The agronomists point out that the number of days favorable to soil preparation is quite limited after November 1. Rain and wet soil, both typical of this period, make late seeding almost impossible.

Miss Edith Arthur of Tryon was a recent guest of her brother, J. H. Arthur and family for several days. Sunday Mr. and Mrs. J. H. Arthur and Miss Arthur were guests of Mr. and Mrs. George Arthur of Canton.

Bob Allran of Fort Bragg spent the weekend with his mother, Mrs. A. A. Allran and his wife and children who had been visiting his mother. Mrs. Allran and children returned to their home at Mount Airy Monday.

sible. Late seedings also are more vulnerable to early freezes.

Variety as well as seeding date is important in producing good small grain yields, say Rankin and Middleton. Atlas 50 and 66 wheat are recommended in Coastal Plain and Piedmont areas and Thorne wheat is recommended in the mountains. Arlington oats are recommended throughout the State for fall seedings. Victor-grain and Fulgrain are good early varieties for Piedmont and coastal areas. As for barley, Colossal and Calhoun are suggested.

Pastor of the church is Rev. Edgar Mauney Cooper, Kings Mountain native, and pastor since December 1945 of the historical church which the Philadelphia Inquirer call "Lutheran Landmark."

One feature of the anniversary week celebration was a Bach Musicale, presented on the evening of September 12 before 800 persons, and featuring among the artists participating Kings Mountain duo-pianists Ernest and Mildred Mauney, who played "Bach's Two Piano Concerto in C Minor."

On the evening of September 14, a mammoth pageant "Mark Her Bulwarks" was presented, with Miss Clara Plönk, of Kings Mountain, serving as narrator. The pastor was co-director of the pageant, which depicted the growth and activities of the church since its founding in 1700 by a small band of German Lutherans, many of whom came to the new world to escape religious persecution. Some 1,200 persons attended the pageant.

Published in connection with the anniversary was a handsome 56-page souvenir booklet giving in detail the history of the church. The present church structure, fourth to occupy the site, is itself 183 years old. A church educational building is now under construction.
