Davidson Project Awaits Survey Data

The Kings Mountain district board of school trustees is instituting a survey, to begin Friday, to determine location of the proposed new five-room building for Negro school students.

The survey is to determine if the new construction can be built as an addition to the present Davidson school building or if it will have to be moved to a nearby new location.

If sufficient acreage can be secured at the present site, the new unit is to be built there it is understood.

J. L. Beam, of Cherryville, is the architect for the project.

W. L. Pressly. The public is invited.

New Section Seats To Be Ready Oct. 5

A new concrete-and-concrete-block section of bleachers is scheduled to be ready for use Friday, October 5, when the Kings Mountain high Mountaineers observe homecoming in a battle with Forest City high.

Fred Wright, Jr., who is building the section, said Wednesday that the unit would be ready provided unusually bad weather did not delay the work schedule.

The city has moved the large section of grandstand bleachers from behind home plate to the east side of the football field and that section, along with the new one purchased last month, will make available around 400-450 seats on the visitors side.

The new concrete section, on

the west side, replaces a wooden unit torn away several weeks ago. It is larger than the old section but will seat around the same number of people. The new unit has nine rows of seats with large walkways between the rows.
