Ronnie, age 14. nel Boone Theatre is on a 35-acre rursing concept," for he has been wooded tract between the Blue Ridge Parkway and U. S. High- ity. He donated the site for the will attract thousands of visitors.

Most of the action of the drama | Salem Church. takes place between 1770 and 1780, when Daniel Boone and other pioneers moved into the Appalachians. Boone appears throughout as a symbol of freedom and the pioneering spirit which led to America's final break with colon-

were hired workers. "Horn in the West" is the first major project of the Southern Appalachian Historical Association. Inc., chartered in 1951 as a non-profit organization to preserve and perpetuate the culture and history of the people of the southern highlands. Dr. I. G. Greer of Chapel Hill is president of the association

Staging and direction of the play are under the supervision of Samuel Seldon, director of the Carolina Playmakers at the University of North Carolina. This organization has supervised the production of successful outdoor dramas in North Carolina and other states

Duplin Farmer Enjoys Retirement

Gaston Branch, Negro farmer of Route 1; Pink Hill, is now enjoying the fruits of his labor after 65 years

Few people, especially farmers. ever reach the goal of retirement. Branch is one of the lucky few.

"It hasn't been a path of roses all the way," Branch recently told Riddick E. Wilkins, Duplin Negro county agent for the State College Extension Service. And well he might say this. He and his wife have reared 13 children. For 15 years they were tenants, but they have owned and operated their own place for the past 22

When asked the selling price for his farm-lock, stock, and barrel-Branch replied that "\$75,000 couldn't buy me out.

He has long been rated a prosperous farmer, using improved methods and modern machinery He attributes much of his success to diversified farming, with special attention to livestock. He keeps a large herd of hogs and

Agent Wilkins comments that Branch's prosperity can't be considered a result of the "nickel

hair growth to severe mange, bare spots, moist fungi-or money back.

dard on ROADMASTER.

What's Your Notion of Magnificent Motion?

WE'LL admit that we're taking in a lot of territory when we use a word with the definition shown above.

But no lesser term can do justice to all the things that make a Buick such a joy to drive and to own.

Splendor and sumptuous adornment you'll certainly find in its rich interior - grandeur you'll certainly find in the mighty flow of its power.

But this is only background for what is justly termed its Million Dollar Ride. Yes, sir, magnificent is the word for this

majestic beauty in motion. There's such an earth-hugging, mileskimming feel to it, as it bullets along the highway.

It holds a straight course without weave or wander-seems to snug down to the road on curves.

A massive X-braced frame gives it solidity. A torque-tube firms its keel. End-sway and side-roll are neutralized. The engine is Hi-Poised mounted on rubber pillows-and big, soft-acting coil springs on all four wheels soak up the jars and jolts, float you over roadripples, "washboard gravel" or weatherpocked macadam as if they weren't there.

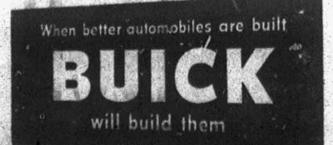

Even its Dynaflow Drive* convibutes to the smoothness of its forward motion by cushioning the transmission of its power.

How about taking one of this year's Buicks-Special, Super or ROADMASTER-on a cruise of discovery all your own?

Touch off its Fireball 8 Engine that's a gas-saving high-compression valve-inhead-head it out for the roads you know by past experience-and let it speak for itself. Even the price tag is eloquent proof that this is the car for you.

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at entre cost on othe Series.

Sure is true for 52
