Celebrities Have Roles In Dare Film

Lindsay Warren, James E. Webb, Kay Kyser, Georgia Carroll, Betty Smith, Charlie Justice and Lynn Riggs are among the roles in the new technicolor film, "Dare—The Birthplace of America," which is to be shown here during the week of May 21.

Forty-five other communities have also arranged to show the picture during the week of June 4.

W. K. Mauney, Jr., who has been named chairman of the Jaycee film project here, has requested that organizations interested in viewing the movie contact him immediately to assure themselves of a date on the calendar.

These presentations will be under the sponsorship of the local Jaycee organizations.

Candidates' Stand On Education Is Reported Near-Uniform 'Yes'

More than 22,000 teachers and school administrators who make up the North Carolina Education Association will have a chance to find out this week how the ten candidates for the offices of Governor and Lieutenant Governor stand on public education.

The lead article of the May issue of North Carolina, Education, official journal of the NCEA, is based on replies to a questionnaire sent in late March by the NCEA to the candidates for the two offices. All candidates replied.

The questionnaire asked the hopefuls to state their position on the following goals: 1. A reduction of class size from 32 to 30 pupils per classroom; 2. A salary schedule for A-certificates teachers of \$2600 to \$4100; 3. Appropriations to provide attention to "lifers" in all school units; 4. Increased appropriations for current expense items; and 5. Completion of the school building program by state bond issue.

The replies indicate that, in the main, the candidates endorse this program.

William B. Unstead favors all items of the program if they can be provided from available revenues.

Hubert E. Olive gave a flat "yes" in favor of all items except that dealing with school building aid. On this matter Olive says: "I favor more State funds for aiding local units to construct school buildings, the financing to be worked out."

Unstead's stand on school buildings is: "If such a building program cannot be otherwise financed, then I shall favor submitting a bond issue to the people of North Carolina in order that adequate school facilities may be provided and that segregation may be maintained, which is essential for the preservation of our school system, and I favor

Liberty Life Tops Half-Billion Mark

Liberty Life Insurance Company, one of the Southeast's leading financial institutions, has further increased its position by attaining the \$500,000,000 mark in total insurance in force, according to Francis M. Hipp, president.

The company has been engaged in a "Half-A-Billion" campaign during the past nine months, the goal being reached at the end of April. Total insurance in force now stands at approximately \$500,800,000.

Participating in the campaign was Liberty Life's field organization of more than 1,000 representatives of the Combination Division, Ordinary Division, Savings and Loan Insurance Department, and Group Department. Highest percentage of campaign quota was made by the Savings and Loan Insurance Department.

Founded in 1905, Liberty Life has doubled its insurance in force in a little more than six years. Assets total over \$59,000,000, and the company's 93 branch offices serve nine Southeastern states and the District of Columbia.

ORIENT

2 3 4 5 6 7

YOU can have fun figuring out your message from the Orient by use of this pleasant little letter puzzle. If the number of letters in your first name is 5 or less, subtract from 7. If more than 5 letters in your first name, subtract from 13. Now take this result and add your key letter in the word ORIENT at the top of this puzzle. Then, starting at the upper-left corner, check each one of your large key letters as it appears from left to right. Below the key letters is a code message for you.

Chicken-Eating Rate Going Up In United States

Americans are now consuming poultry products at a faster rate than ever before.

In 1946, for example, the average American consumed 374 eggs, 25.4 pounds of chickens, and 4.5 pounds of turkey. The 1952 rates are estimated at 409 eggs, 31.2 pounds of chicken, and 6.0 pounds of turkey.

To meet this increasing demand, Tar Heel farmers have greatly expanded their production of eggs, turkeys, broilers, and farm chickens, says R. S. Dearstyne, head of North Carolina State College's Poultry Department.

According to Dearstyne, a recent report by the U. S. Department of Agriculture's Economics shows that the gross income of North Carolina farmers from poultry hit a record-breaking \$99,383,000 in 1951.

Eggs accounted for \$54,237,000 of the total; turkeys, \$5,308,000; broilers, \$25,472,000; and farm chickens, \$14,366,000.

These figures include products consumed at home. Cash farm receipts, totaling \$78,475,000, were divided as follows: eggs, \$41,119,000; turkeys, \$5,204,000; broilers, \$25,472,000; and farm chickens, \$6,680,000.

Commercial broiler production in the Tar Heel State jumped from 28,109,000 birds in 1950 to 32,606,000 in 1951. Poundage figures for the two years were 78,705,000 and 91,297,000. The price per pound was 26.3 cents in 1950 and 27.9 cents in 1951. Gross income from this source increased by nearly \$5,000,000 during this period.

KINGS MOUNTAIN, N. C.

ALWAYS BE CAREFUL DRIVING

FREE AIR

It gives this old familiar sign new meaning

WOULD you be interested in getting one gallon free with each tankful of gasoline you buy?

Then we can tell you this: It will certainly be worth your while to read this brief story of Buick's new Airpower carburetor.

Truth is—a skillful driver can just about double the bonus we mention, if he makes the most of what this year's ROADMASTER has to offer.

The reason you can get such a bonus traces to a pair of simple facts:

- It's a mixture of gasoline and air that gives you power.
- Buick engineers have come up with a four-barrel automatic carburetor that lets you use more gallons of air per gallon of fuel.

Most of the time, only two of these barrels are needed—and they feed such a thrifty mixture that you use less gasoline at 40 mph than you'd formerly use at 30.

But—when you want a quick burst of eager power—you can double the air supply as well as the gasoline feed—and come up with the highest horsepower that Buick's Fireball 8 Engine ever delivered.

Of course, any man who's buying a car as fine as a ROADMASTER wants a lot more than extra miles from a tankful of gas.

He wants the distinction of extra room, extra comfort, richer fabrics and all the other refinements that make a car truly fine.

He wants to ride with solid security, confident poise and lordly silence.

And, while he may not admit it, he yearns for a car that's full of fun.

All this, we promise you, and more will be yours when you take the responsive wheel of a ROADMASTER.

How about doing that—soon?

Equipment, accessories, trim and models are subject to change without notice.
