Personals

Mrs. Edgar Dellinger, and daughter, Doris Jean, of Fort Dix, N. J. arrived here last week for an extended visit with her parents, Mr. and Mrs. R. N. Parish.

Mr. and Mrs. Jessie Kiser of Charlotte were guests of Mr. and Mrs. L. A. Hoke over the weekend.

D. E. Hord of Charlotte was a Sunday guest in the home of Mr. and Mrs. Tim Hord.

Mr. and Mrs. B. S. Neill were weekend guests of Mr. and Mrs. Jack Fortune of Hickory.

Mrs. Tim Hord was a spend-the-day guest last Thursday of her mother, Mrs. B. S. Hubbard of Earl.

Mrs. Rudi Wueneberg and son leave by plane Sunday for a visit with her parents in Allentown, Pa.

Miss May Plonk is spending several weeks visiting relatives in Raeford, Southern Pines and Robbins.

Mrs. Hilton Ruth has returned from a visit with her parents, Mr. and Mrs. Meroney of Mocksville.

Railway signaling in America began in the early 1830's. The first mechanical signal device on record in this country, used as early as 1832, was a flag, and later a peach basket, lowered and raised on a mast. The red canvas ball system was introduced in 1852.

Grace Methodist Church History Dates Back More Than 100 Years

Grace Methodist Church has a history of more than a hundred years. The first congregation worshipped in a one-room log building known as Kelly's Chapel. This first church was given to a Negro congregation, and the site was moved to East Kings Mountain and the name changed to Bradley's Chapel. Later the church site was moved again. This time to the location of the present Grace Church. This is the third church on the present site.

Before the unification of the three Methodisms, Grace Church belonged to the Blue Ridge Conference of the Methodist Church. It became a station about 1910.

On February 17, 1946 the second Grace Church was destroyed by fire with an insurance of only \$5,000.

The following named persons composed the building committee for the erection of a new church: Messrs. Frank Greene, Chairman; Forrest Huffstetler, Frank Roper, George Kennedy, D. C. Pasour, Sr., and Mr. and Mrs. J. E. Mauney.

With remarkable harmony this courageous congregation, led by the pastor—the Reverend H. E. Jones, erected the present commodious building. The main sanctuary has a seating capacity of 350, and the Educational department has an assembly room, a pastor's study, and 14 Sunday School rooms.

The church was built, beautifully furnished, and dedicated within a year. The church has a membership of 285, and a Church School enrollment of 290.

The Rev. B. W. Lefler is pastor. The Leflers have three sons—Wesley Lefler, Jr., a ministerial student at Duke University; and Francis and John Charles Lefler of the home. Mrs. Lefler is completing her fifth year as Bible teacher in the Cherryville Schools.

An average of 8 new locomotives a day were placed in service by the American railroads during the first two months of 1952. Total number installed during that period was 487, compared with 408 new locomotives in the first two months of 1951. On March 1, 1952, there were 1,509 new locomotives on order—1,573 diesel and 17 steam units. Their total cost will be in the neighborhood of \$167 million.

During the 1950-1951 planting season, 2,809 Tar Heel farmers set out 6,324,725 tree seedlings. Mosaic disease has been found in several wheat fields in Rowan County this spring.

Tentative Hunting Regulations Set

The North Carolina Wildlife Commission met in Raleigh on May 8 to set a list of tentative regulations for the 1952-53 hunting season. Clyde P. Patton, Executive Director of the Wildlife Commission, announced today. The tentative regulations will be presented to interested sportsmen at a series of nine meetings in each of the nine wildlife districts. At these meetings interested sportsmen will be given an opportunity to express their desires and opinions as to how the official rules should be set.

The date and place of the local district meeting is Wednesday, May 28, at the courthouse in Morganton, 10:00 a. m.

Following are the tentative dates and bag limits for the coming season:

BEAR: October 15 - January 1, with the same exceptions as were made official last year. In the western counties where the use of dogs for deer hunting is illegal, bear hunting will be closed during the open season on deer, since it is illegal to use dogs for bear, but not for deer, in western North Carolina. It is further proposed that the taking of bear weighing less than 50 pounds be prohibited. No changes in the bag limits are proposed.

DEER: It is proposed that male deer only with antlers three or more inches in length may be taken. The season in eastern counties would be October 15 - January 1, in Cherokee, Clay, Graham, Macon, Madison, and parts of Burke, Caldwell, Avery, McDowell, Yancey and Mitchell counties a split season is proposed which would involve three series of dates: November 17 - 18; November 24 - 26; December 3 - 6. In Transylvania and parts of Jackson, Haywood, Buncombe and Henderson counties the season would be November 17 - December 6. A split season is proposed for Richmond, Harnett, Hoke, Cumberland, Moore, and Scotland counties involving dates from October 15 - December 1 and December 17 - January 1. In Stanly and Montgomery counties an increased season is proposed, running from November 17 - 26. A two-day season is proposed in Alleghany and Surry counties, November 17 - 18. A season in Person, Granville and Durham counties is proposed for November 17 - 22. No changes in bag limits are proposed.

RUSSIAN WILD BOAR: The wild boar season is proposed the same as last year—October 15 - January 1—with no changes in dates, bag limits, or counties.

RACCOON AND OPOSSUM (with guns and dogs): In eastern counties the season would be from October 15 - February 14. In Rockingham, Caswell, Person, Granville, Gullford, Alamance, Orange, Durham, Randolph, Chatham and Lee counties (District 5), a season from October 1 - February 14 is proposed. In and west of Stokes, Forsyth, Davidson, Stanly and Anson counties the open season would be October 15 - January 1, except that in Cabarrus and Union counties no open season is contemplated. In these same counties the carrying of axes and saws when hunting raccoon and opossum would be prohibited. There would be no restrictions on bag limits, except that in and west of Surry, Wilkes, Alexander, Caldwell, Burke and Rutherford counties the bag limit on raccoon would be one per person, two per party, 4 in possession, and 20 per season.

SQUIRRELS: In and east of Scotland, Hoke, Harnett, Wake, Franklin and Vance counties the squirrel season would be October 15 - January 15. In Granville, Person, Caswell, Rockingham, Gullford, Alamance, Orange, Durham, Rowan, Davidson, Randolph, Chatham, Lee, Montgomery, Moore, Stanly, Cabarrus, Mecklenburg, Union, Anson, Richmond, Catawba, Lincoln, Gaston, and Cleveland counties the season would be November 1 - January 15. In and west of Stokes, Forsyth, Davie, Iredell, Alexander, Burke and Rutherford counties the season would be October 15 - January 1. No change in the bag limits for squirrels is contemplated.

RABBITS: November 27 - January 31. Bag limits would be 5 daily, 10 in possession, and 35 per season.

QUAIL: A state-wide season on quail is proposed, extending from November 27 - January 31, with a uniform daily bag limit of 8, possession 16, and season 100.

WILD TURKEY (gobblers only): November 26 - January 31, with no change in bag limits.

RUFFED GROUSE: November 27 - January 31, except that in and west of Avery, McDowell, and Henderson counties the season would be October 15 - January 31. Same bag limit proposed.

FOXES: No change. **GROUNDHOG:** No change. **PHEASANTS** (released for gun): November 27 - January 31.

TRAPPING REGULATIONS **MINK, MUSKRAT, RACCOON:** State-wide season would be November 15 - January 31, except that in Currituck county and Hatteras, Kennekeet, Atlantic and Nags Head townships of Dare county a one month season—January 1 - January 31—is proposed. In and south of Beaufort, Craven, Jones, Duplin, Sampson, Cumberland, Hoke and

Footie Nine Edges Craftsman By 6-4

Footie Mineral Company's softball team edged Craftsman 6 to 4 on the Craftsman field last Thursday to post its first win in Men's Softball League play this summer.

Leroy Styers went the route for the winners, allowing seven hits and runs only in the first two frames. Fred Thornburg, 2b, and Syters got two hits each to pace the stickwork.

Boyd Washam started for the losers, went out after the third frame with his team ahead 4-3. Harold Pearson took over and was touched for three runs in the fourth.

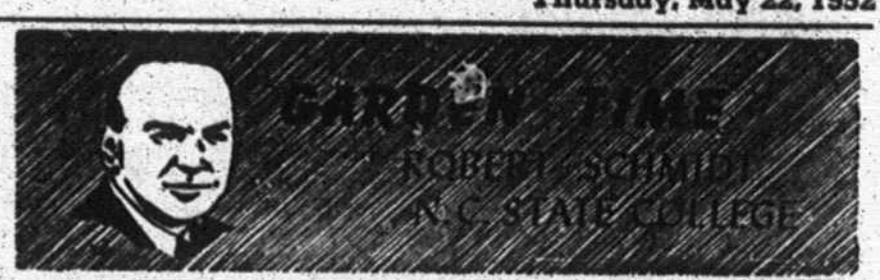

Rocky Ford paced the losers at the plate with 2 for 4.

Footie 021 300 0 6 7 1
Craftsman 220 000 0 4 7 0

Styers and Chandler; Worsham, H. Pearson (LP) and Reynolds.

Scotland counties the season would be December 1 - February 15. In Ashe, Alleghany and Watauga counties trapping would be permitted except for raccoon November 1 - February 28. It is proposed that raccoon may not be trapped west of U. S. Highway No. 1, which divides the state north and south.

OTTER: In and east of Richmond, Moore, Lee, Harnett, Johnston, Nash, Halifax and Northampton counties the season would be December 15 - January 31, except that in Currituck county and Hatteras, Kennekeet, Atlantic and Nags Head townships of Dare county the season would be January 1 - January 31.

This is "bug time" as well as garden time and garden fruits, vegetables and flowers seem to have more than their share of pests. It is not possible to give specific control information in a short column such as this, but certain principles of control can be mentioned. Spray materials and labor are expensive and unless used properly and intelligently may be a waste of time and money.

In order to carry on a successful spray program you should first know or determine what pest you are trying to control. Is it a disease, is it a chewing insect like a bean beetle or a sucking insect like an aphid, and what sort of damage does it do?

Second, you should know what spray material to use to control the pest and how to apply it to be effective. For example, it would require a fungicide to control plant diseases, and this spray would have no effect on insects. Insect sprays would not control diseases. It is often necessary to know how to apply the spray. For example, the Mexican bean beetle feeds mostly on the under side of the bean leaf. Therefore, the spray must be directed against the under side of the leaf in order to effectively control it. Third, the spray must be applied at the right time. This is very important, especially for control of plant diseases as well as certain insects. Fourth, do a thorough job. Good coverage is necessary for effective control.

Your county agent can help you identify the specific pests that are giving you trouble and can furnish you information for controls. Or you may obtain bulletins from the N. C. Agricultural Extension Service, Raleigh, N. C.

ADMINISTRATRIX'S NOTICE
Having qualified as administratrix for the estate of C. C. Edens, deceased before the Clerk of the Superior Court for Cleveland County, all persons having claims against the estate are notified to file same with the undersigned on or before the 14th day of May, 1952 or this notice will be pleaded in bar of their recovery.

All persons indebted to said estate will please make immediate payment.
This the 13th day of May, 1952.
Mrs. Sallie C. Edens,
Administratrix
m-15-june-19 d

A coat of shellac along a proposed cut in plywood will give a sharper, cleaner edge after sawing. The shellac holds the wood fibres in place at the edge of the cut.
