Mrs. MacLeod Stresses Need For Christian Leadership

Mrs. W. M. MacLeod of New York, general Chairman of United Church Women spoke before a large and appreciative group Thursday afternoon in the Presbyterian Church.

Mrs. MacLeod based her thoughts on "Who We Are As United Church Women" and "What We Do As United Church Women".

The question, how can we meet the needs of today? We can meet these needs by meeting the basic needs of the human being, unless we meet these needs our country is in danger. War begins in the mind, so peace must begin in the mind. We as United Church Women have a responsibility to build for world peace. God is going to exact much from us as church women and we must do something about it.

Three things United Church Women are to work for: Christian World Missions, Christian Social Relations, Christian World Relations. Mrs. MacLeod stated, "Christian Women United and dedicated can change the World." A social period was held in the chapel of the church following the address, the ladies served punch, cookies and mints.

Disabled Korean Veterans Eligible For GI Insurance

Veterans of the Korean conflict who were disabled in active service are eligible for two types of GI insurance, the Veterans Administration said. The same applies to veterans of active service in the military forces anywhere in the world since June 27, 1950.

There are deadlines for applying that must be observed in all cases, VA added.

Disabled Korean veterans may take out Government term insurance up to a total of \$10,000. It is renewable every five years, at premium rates that increase with each renewal. This type of insurance does not pay dividends.

Application must be made for the term insurance within 120 days from the date of discharge and one month's premium must be paid. Applications and premiums from veterans living in this area should be sent to the Veterans Administration District Office, P. O. Box 8079, Philadelphia 1, Pennsylvania. Any Veterans Administration office can supply information with regard to the applications and policies, including premium rates.

This same type of term insurance is available to veterans of active service since June 27, 1950 who were not disabled.

Permanent GI insurance policies similar to those available to World War II veterans also may be taken by disabled Korean veterans who have service connected disabilities that entitle them to

compensation payments from the VA.

Applications for the permanent type insurance must be made by disabled veterans within one year from the date that VA determined they had service-connected disabilities.

To qualify for such permanent insurance plans, a veteran cannot have some other non-service-connected disability which makes him uninsurable.

N. C. Hatcheries Show July Decline

RALEIGH — Commercial hatcheries in North Carolina produced a total of 4,063,000 chicks during July, according to a report released today by the State Federal Crop Reporting Service. This was a drop of 13 percent from June hatchings. The decline in July was seasonal in nature but was a much sharper seasonal drop than occurred at the same time in 1951. Scarcity of hatching eggs is limiting the output of chicks at the present time.

The demand for broiler chicks during July was fair with weekly placements showing a seasonal decline during the month.

Chicks produced in North Carolina during the first seven months

of this year totaled 43,046,000 compared with 39,947,000 during the same period last year. This was a gain of 8 percent.

Prices received for both straight-run chicks of heavy and cross breeds by North Carolina hatcheries on August 1 showed gains from a month earlier. An average price of \$14.50 per hundred was being received on August 1 for both of these classes, compared with \$14.00 a month earlier. Straight-run chicks of light breeds at \$15.00 per hundred were off \$1.00 from a month earlier.

Almost two-third of North Carolina flue-cured tobacco crop each year is graded into three lowest quality grades, to a great extent because of poor curing
