Jaycees Witness Glass Show

A special advertising committee of the birthday calendar project was appointed at the regular meeting of the Junior Chamber of Commerce Tuesday night at Masonic dining hall. On the program was an interesting glass demonstration.

President Joe Hedden, who presided over the meeting attended by 26 Jaycees and three guests, appointed the following to the committee, headed by Jack White, projects chairman; Ken Morrison, Delbert Dixon, Sam cold and will be used in autos Mitchem, Grady Howard and Bill being built that are equipped

between an electric lamp and a radiometer, the "blue" glass reduced reaction whereas a piece of plain window glass created a rapid action of the instrument.

In talking of glare reduction safety glass now being installed in some new cars, Mr. Hobbs said that it has higher heat reducing qualities than of glare reduction and will soon be standard on all automobiles.

Another glare reduction glass shown, really designed for that purpose and used in construction work, was opaque glass.

Thermopane glass consists of two pieces of regular glass welded or soldered together, with a vacuum space between. This glass does not fog and keeps out with air conditioning units.

Case hardened glass is regular Mr. White announced that the the qualities of the glass, he club made around \$20 on the cir- said. Mr. Hobbs demonstrated that this glass would hold over endar project is November 1, he 200-pounds of weight by stand-Bill Beam, a member of the glass blocks.

Women Have Big Part In State Fair

Lucious cakes, candies, jellies and other canned fruits, vegetables and meats will - if the past is a guide -- compose the largest number of exhibits of any one department at the 1952 State Fair in Raleigh October 14-18, it is predicted by Miss Ruth Current. State Home Demonstration Agent and superintendent of the women's division of the Fair, "Last year," she said, "We had nearly 500 separate exhibt entries in the culinary department by 228 women for 35 counties; this year we expect - and have room for even more."

Other departments of the Fair patronized largely by homemakers are the clothing and house furnishings' display. Miss Current said that an increase of \$267.75 in clothing department premiums is expected to bring in more and better dresses, coats, and other apparel made by Tar Heel homemakers. In 1951 when clothing premiums totaled \$560.50, exhibits were entered by 156 persons from 23 counties. The house furnishings

department attracted entries by 136 exhibitors from 25 counties last year.

"It is urged that prospective exhibitors make their entries eary." the State College, Extension Service leader said. "We may have to reject entries received after all available display space is applied for Prospective exhibiors may obtain free a copy of the 1952 State Fair catalog and the official printed entry application form - which must be used by writing: Manager, N. C. State Fair, Box 1388, Raleigh."

The catalog lists the closing date for entries in all three women's departments as Saturday, October 11, at 6 p. m. All exhibit material must be on hand this year by 10 a. m. on Monday, Octo. ber 13, and judging will be done Monday afternoon, starting at 1 o'clock, before the Fair opens on Tuesday, October 14,

POSTPONED

Regular September meeting of the Kings Mountain district board of school trustees, scheduled Monday, was postponed, No date had been set Wedness day afternoon.
