**LETTER  
TO THE EDITOR**

To The Citizens of Kings Mountain:

It was during a recent crisis that you citizens, of all factions, religious and political beliefs, united to fight for a common cause, a reduction in electric rates. You fought an excellent battle and won your victory.

Another crisis is here and once again the future of the city rests in the hands of you enterprising citizens who see and plan for a better tomorrow. A tomorrow filled with sunshine and happiness, youngsters playing on a front lawn, healthy and strong. A tomorrow such as can be brought about only through the modernization and expansion of the present city sewage disposal system; an old and outmoded system which has been condemned by State Health authorities. On December 6, the question to be decided is whether the city shall issue bonds, at a very low rate of interest, to install a modern sewage disposal system. Your vote YES will make a secure future for your children by the installation and maintenance of such a system.

There are those who do not care for any type of improvements in your fair city. It is they who are speaking of this writer as "at least 40 and filled with old fogey ideas". BUT THE RECORD MUST BE PUT STRAIGHT. Many of you are personal friends but for you who aren't, I'm slight over 20. (sorry to disappoint the fellows by being only half as old), recently discharged from active duty with the Army, unmarried, have modern young ideas, believe in the golden rule, fair play, a future tomorrow for the children of today and do hope and look forward to meeting and becoming friends of you all.

Nothing can be done about yesterday. Today has already been planned and is happening but there is still time to do something to secure the future and a better tomorrow. Your registration this coming Saturday and your vote YES on Saturday, December 6 is the first step in the right direction. Give the American people all

the facts and they'll always come up with the right answer. It is our prayer that you have and understand the facts. Your answer will be known on December 6.

A pinch of sugar added to the water when cooking fresh, frozen, or canned peas makes them taste garden-fresh.

In 1951, \$1,719 was the average net income per farm worker while \$3,416 was the average net income of the industrial worker.
