School Committees To Meet Monday

Further Talks On Consolidation Plan Scheduled

Area school committees meet again Monday night, at Grover school at 7:30 p. m., to discuss further plans for consolidating rural areas into the Kings Mountain school district. The Monday night session will be the fourth in a series of meetings on the proposal, which was recommended by state school officials, and will be the second at Grover school. Previous sessions were also held at Bethware school and Kings Mountain Central school. Among items of business to be considered Monday night are rulings and opinions on various barriers to the consolidation as received from the North Carolina Department of Public Instruction and the attorney-general. It is also possible that a report will be made by the committee appointed to investigate site possibilities for a consolidated high school, one school official said. Members of the committee are W. B. Harry, Grover, J. C. Randle, Bethware, and F. W. Plonk, Kings Mountain. Basic recommendation of the state school planning board was that the area effect a consolidation and construct two modern high schools, one for white students and one for colored students.

Postal Receipts Gain Slightly

Postal receipts at Kings Mountain postoffice showed a slight gain during the first half of 1953, according to report yesterday by Assistant Postmaster George B. Ford. Receipts for the six months ending June 30 totaled \$24,320.45, exactly \$547.21 more than the \$23,773.24 received during the first two quarters of 1952. The percentage increase was slightly more than 23 percent. Indications are that the 1953 calendar year receipts will easily top \$50,000 and, perhaps, set a new record for postal receipts at the Kings Mountain postoffice. Retention of first class status for the Kings Mountain postoffice is assured, barring any change in the method of determining status, Mr. Ford said. Under present schedules, a postoffice attains first class status when its annual receipts total \$48,000. Receipts for the final or Christmas quarter are customarily heavier during the year, he said, but added that third quarter receipts are customarily the lowest during the year. Money order fees are not designated as ordinary "receipts" and are not included in the totals given.

In an open letter addressed to "Dear Citizens of Kings Mountain," Mr. Vassau wrote the Herald this week: "You may well be proud to be called 'a citizen of Kings Mountain,' when your town numbers

"On the night of June 25th, we were involved in an auto accident in your town; the above named people, and several more unnamed to us, went 'all out' for us, securing us accommodations, food, transportation, and showing us such neighborliness, and kindness, that Kings Mountain which should have remained a dark spot in our mind, instead, be a happy memory. To these people, and the three unknown young ladies who stayed with my wife and baby for two hours at the 'scene' may we express our heartfelt thanks.
