on the watch... WE HAVE A WATCHMAN at our store—though guarding us is not his job. Mostly, he's on the watch to keep your watch on the go. He's our watch service expert—the man who knows "what makes it tick." And what makes it keep ticking—almost half a million times a day. Your watch does that, you know, year in and year out. That's why he so often reminds us how important it is to have any watch inspected periodically. The little time it takes can save big money later on. And that's why we're urging you to stop by for a watch checkup today. We'll be watching for you!
