

**QUESTIONS AND ANSWERS**

**QUESTION:** How can I be sure I'm getting a fair butterfat test of my milk I sell to the dairy manufacturer?

**ANSWER:** Most dairy plants operate like this: A sample of each producer's milk is taken every delivery day and put into a sample bottle that is chemically treated and refrigerated to retain its full butterfat content. Every two weeks this composite sample is tested for its percentage of butterfat by use of the Babcock method. If the results vary more than 0.3 per cent from the last testing period, another test is made as a double-check.

**QUESTION:** When should I take soil samples?

**ANSWER:** It is best to sample well in advance of planting. By early sampling, you will be sure to have a report and recommendations in sufficient time to obtain lime if needed and the desired fertilizers. The soil testing laboratory is generally overloaded during the period from January through March and reports may be delayed during that time. Successful soil tests can be made any time during the year on North Carolina soils. Therefore, October, November and December are good months for taking samples.

**QUESTION:** Can good pastures be used to advantage in raising pigs?

**ANSWER:** Good pasture is the cheapest single source of feed. By using sufficient acreage and suitable plants, grazing can be provided during most of the year. Good pasturage will improve sanitary conditions, will act as a tonic, will encourage thrift and health, and is an excellent source of vitamins, minerals and protein. The amount of grain required can be reduced by 15 per cent and the amount of protein supplement by 30 per cent when good grazing is provided.

**Concord 12, K. M. Rebels 7**

Kings Mountain's Rebels lost a football game here Saturday afternoon 12-7 in a storybook finish for the visiting Concord team.

The 14 and 15 year old boys jumped into an early lead when Starns, 165 pound end, scooped up a K. M. fumble and raced 26 yards for a touchdown. The try for point was blocked and the visitors enjoyed a 6-0 lead.

The two teams fought to a standstill mostly in mid-field until just before the half ended, KM coach Major Loftin sent Gene Layton in for the first time and on the first play Rathbone heaved a 35 yard pass that Layton gathered in on the Concord 35 and raced the rest of the way for the score. The point was good and at the half the score was KM 7, Concord 6.

The second half found KM in possession of the ball most of the time and except for fumbles, which cost them possession with in the ten yard line on several occasions, would probably have scored. With less than a minute remaining, KM fumbled on the Concord 18 yard line. A pass from Brewer to Starns was complete, the play carrying to the KM 49 yard line. With 5 seconds remaining KM was penalized 15 yards for roughness and on the next play KM's Byers leaped high to intercept a Brewer pass but just as he hit the ground Starns grabbed the ball and raced into the end zone with the winning touchdown.

It was a hardfought and interesting football game with each side showing a lot of hard tackling and blocking. Officials were Bud Medlin, Jim Costner, and Ellis King.

Kings Mountain's next game will be against Rev. Eade Anderson's South Gastonia pre-high school team. Rev. Anderson is pastor of Olney Presbyterian church and formerly was assistant to Rev. P. D. Patrick of First Presbyterian church.

**Drop Pair**

Shelby and Blacksburg proved to be a little larger and stronger last Thursday night as the local Rebels and Cowboys lost a twin bill.

The Rebels, after spotting Shelby two early touchdowns in the first quarter, came back strong in the second half to score. When it seemed KM might pull the game out of the fire, the locals were overcome by fumbleless and Shelby went on to win 20 to 6.

The Cowboys, although outweighed at least ten to fifteen pounds to a man, put up a stubborn fight before bowing in the late stages by a 26 to 0 score.
