LET'S TALK IT OVER

By: Grace & Selma

We sometimes hear of women, usually the married variety, who spend rather lavishly on clothes, beauty parlor treatments, jewelry and assorted bric-a-brac dear to the female heart. One upon a time—and this is no fairy tale—such casual disregard of the family budget was punishable by law.

From the 13th through the 15th centuries England, France, Italy and Greece had what was then known as the "sumptuary laws" designed to hold in check over-lavish entertaining and living by more financially fortunate element. The limit a woman could spend for dresses, shoes, furs and jewels was quite rigidly controlled by law. The old-timers also took a dim view toward high living in the form of heavy outlays for food, furniture and shelter, hence they too were on the list.

Perhaps there was a certain method in the madness of a few centuries ago, but it wouldn't work today. As a matter of fact, it seems to us that on occasion the old man can be pretty fast with a buck.

Nowadays it seems a buck goes pretty fast... but one way of extending your dollar is by coming to ALLEN'S FLOWER SHOP. You'll find all our flowers to be ABOVE-average, and our prices BELOW-average... so you too can enjoy the luxury of BEAUTIFUL FLOWERS.

**New driver comfort!
New driving ease!**

New Chevrolet Trucks...

do more work per day... more work per dollar!

You save time in traffic. New truck Hydra-Matic transmission gets you off to smooth, time-saving starts without shifting or clutching. Imagine how easy this makes driving in traffic and on delivery routes! It's optional at extra cost on 1/2-, 3/4- and 1-ton models.

You save time on the highway. New high-compression power gets you up to highway speeds from a standing start in less time, and saves you time on hills, too. You make trips faster—and the new Comfortmaster cab makes them seem shorter. It's got everything!

You save extra trips, too. That's because of the extra load space you get in the new Advance-Design bodies. New pickup bodies are deeper... new stake and platform bodies are wider and longer. Also, they're set lower to the ground for easier loading.

You save on operating costs. High-compression power saves you money! The "Thriftmaster 235" engine,

the "Loadmaster 235," and the "Jobmaster 261" (optional on 2-ton models at extra cost), deliver greater horsepower plus increased operating economy.

You save with lower upkeep. New Chevrolet trucks are built stronger to last longer and save you money on maintenance. There are heavier axle shafts in two-ton models... bigger clutches in light- and heavy-duty models... stronger frames in all models.

And your savings start the day you buy. In fact, they start with the low price you pay—and they never stop. Chevrolet, you know, is America's lowest-priced line of trucks. And it's also the truck that has a traditionally high trade-in value.

Come in and see how much you're ahead with America's number one truck. You'll like the way we're talking business!

Buick now outsells all other cars in its price class and above

YOU'VE probably noticed it right in your own neighborhood.

Bright new Buicks appearing here, there, everywhere. And more and more of them in recent weeks.

Know what's happening?

Folks in growing numbers—(and maybe you'll be joining them soon!)—are finding Buick styling, performance and value far too wonderful to pass up.

So Buick is selling at a record pace—outselling all other cars in its price class and above.

Matter of fact, latest figures for the first quarter of 1954 show that, in total national volume, Buick is outselling every other car in America except two of the so-called "low-price three."

A look and a ride and a peek at the price tag will be all you'll need to know what's back of this best-selling success.

There's styling in Buick that's the greatest beauty advance in years—the very look of tomorrow—and with the spectacular panoramic windshield that's part and parcel of this dream-car look.

There's performance in Buick as never before—with record-high V8 power, with the sensationally smooth

whip of Twin-Turbine Dynaflo,* with the buoyant ride of all-coil-springing, with a new precision of control and handling.

And there's value in Buick that's hard to match—with prices starting near the "low-price three"—prices that buy more Buick beauty and power and thrill and sheer automobile than smart money ever bought before.

How about you?

Are you ready, willing and waiting to be shown that this best seller called Buick is the buy of the year for you, too? Drop in this week, or give us a call, and we'll arrange a demonstration.
