

The People Have A Right To Know . . . GIVE US ANSWERS TO THESE QUESTIONS, MR. LENNON!

The voters of North Carolina want to know the straight-forward, honest facts about these important questions, Mr. Lennon. If what we hear is not true, give us the facts!

You have said, Mr. Lennon, that the life and record of a man holding the trust of public office should be an open record for all to see. We want the answers to these questions about your record!

THE LIQUOR REFERENDUM

- Did you fight tooth and nail for the liquor interests while State Senator and do all in your power to prevent a statewide liquor referendum?
- Did you, as Chairman of the Senate Committee on Propositions and Grievances in the 1951 General Assembly, carry the bill on a statewide liquor referendum in your pocket for thirty days to prevent it from coming to a vote?
- Did you ever receive any gratuities from special interests—such as the liquor lobby?

PRESSURE ON ELECTION OFFICIALS

- Did you send a letter, dated May 5th and signed by you, to all precinct election officials asking them to do you "a great favor" on May 29th, date of the primary? And what was that favor?
- Did you include in that same letter a veiled threat, stating that you were going to check the election returns "precinct by precinct" to see if "your precinct gave me a fine majority"?

McCARTHYISM

- Did you personally endorse Joe McCarthy as one of your first acts upon arriving in Washington as Senator, and state publicly, "I think McCarthy is a great American and I would be honored to serve on his committee"?

REPUBLICAN

- Did you solicit the support of the Citizens for Eisenhower in this campaign, prompting J. N. Rawleigh, Jr., of High Point, president of that Republican organization in this State, to announce that the Citizens for Eisenhower "will throw their weight to Senator Alton Lennon"?

WAR RECORD

- Did you obtain a defense job in the ship yards to avoid Army service during World War II?

SECONDARY ROADS

- Did you actively work to kill the Scott secondary roads program in the 1949 bond election?

If these things about which the people are talking are not true, you should give the answers, Mr. Lennon.
