

### Four Winners Receive Theatre Passes This Week

Citizens of Kings Mountain and surrounding areas showed an increased interest in identifying Kings Mountain Herald's Mystery Farm No. 2, with a total of 73 persons submitting entries, an increase of 13 over the first week.

Sixty-nine of the 73 persons who submitted entries correctly identified the farm — L. D. Hardin's Peach Orchard, located 6 1/2 miles south of Kings Mountain, on Grover highway.

As customary, names of the 69 correct guessers were placed in a hat and four lucky names were drawn out by David Weathers, of Kings Mountain Herald's mechanical department.

Winners of free admission tickets to Joy Theater were Dicky Tate, of 113 Wells street, Hal Ward, of W. Mountain street, Nanaleen Todd, of Stone street, and Mrs. E. L. Jenkins, of 309 N. Gaston street.

Other readers correctly identifying Mystery Farm No. 2 were: Peggy Oliver, 606 Ganitt st.; Mrs. E. L. Jenkins, 309 N. Gaston st.; Mrs. Nevette Hughes, route 2; Mrs. D. B. **HERALD MYSTERY FARM NUMBER 3** — Pictured above is an aerial photo of a farm in the Kings Mountain area, third in the Kings Mountain Herald Mystery Farm series. If you think you know the operator of the above farm, you are invited to submit an entry, by mail or phone, by noon Saturday giving the name of the farm, if any, and the operator. Names of readers correctly identifying the operator of Mystery Farm No. 3 will be published in next week's Herald and will also be placed into a hat for drawing for four free tickets to Joy Theater. Positive identification is to be made by the operator, who will receive a free 5x7 mounted photo of his farm when he visits the newspaper office. (Photo by Zekan-Robbins Co., Harlan, Iowa.)

### Hardin Farm And Peach Orchard Identified As Mystery Farm No. 2

"We like farming awfully well" was the statement made Monday by Mrs. L. D. Hardin, of Grover. The Hardin farm and peach orchard, operated by the Hardins, was identified this week by 69 Herald readers as Mystery Farm No. 2.

The 111-acre farm and 20-acre orchard was purchased in 1935 from Dave Bookout, Grover farmer, and is located 6 1/2 miles south of Kings Mountain, on Grover highway.

In addition to the orchard, Operator Hardin raises beef and white-face cattle, other livestock, alfalfa, and grain. Two lakes have recently been added to the farm, a house for selling peaches (shown in the photo) and other buildings.

A tenant farmer also lives on the farm. Tractors and other mechanized equipment are in use, Mrs. Hardin reported.

Mrs. Hardin is the former Miss Todd, Kings Mountain Drug Co.; Mrs. Ollie Harris, city; Hal Ward, city; Erwin Houser, 215 Maple st.; Mrs. Herbert Kimmell, 210 Virginia ave.; Roy Pearson, 803 Kathera st.; Dicky Tate, 113 Wells st.; Mrs. Roy Howard, route 1; W. A. Childers, N. Canaler st.; Lalor Franks, route 2; and Mrs. J. T. McGinnis, 202 South Sims st.

erals, phosphorus, and iron. Pound for pound, lean beef has more protein and other nutrients than beef of higher grade — and fewer calories, too.

**COOKING BEEF** — Cooking beef is a challenge to a homemaker's skill. Surprising goodness comes from the less expensive cuts and grades; and if prepared right, they are just as full of food value and every bit as tasty as the higher-priced steaks and roasts.

But they take more time and more care in cooking. The secret of success? Cook them longer with added moisture and a cover but keep the amount of added liquid to a minimum for tenderness as well as good texture and flavor. The "braising" method of cooking consists of browning the meat in fat, then cooking it slowly in a covered pan (with or without added liquid) to the well-done stage. For stews and soups, cook the meat slowly in a small amount of water. It is usually browned before the liquid is added for stews and brown stock and cooked without browning for light soup stocks.

Less tender cuts may also be cooked under pressure. The meat cooks in a much shorter time and retains about the same amounts of nutrients as when braised or stewed.

It takes approximately 240 pounds of rubber built into your car to remove the vibration, bumping, jolting, chilling, soaking and the like encountered in ordinary driving.

### Hints To Homemakers

#### SAVORY AND NOURISHING BEEF

Beef is the most popular of main dishes — a tribute to its satisfying flavor and stick-to-the-ribs qualities. In main dishes, potatoes and other vegetables are a sturdy combiner. In combination main dishes, a high place on the popularity poll goes to rich brown beef stew, with potatoes or dumplings.

Beef is an important source of the proteins that are essential for building and repairing tissues. Beef has this important attribute — it can enhance the value of foods containing incomplete proteins. When beef is eaten at the same meal with protein-rich vegetables, these foods become more valuable as sources of protein. Lean beef is also a valuable source of B vitamins and of the mi-
