

**Fine Records Made By G-W Transfers**

BOILING SPRINGS. — Gardner-Webb College has something to boast about. Its graduates who transfer to senior colleges consistently make better than average grades for their junior and senior years at these schools.

A survey was made recently among the nine senior colleges most often chosen by Gardner-Webb graduates. Statistics revealed from these schools show that students doing their first two years of study at Gardner-Webb average higher grades at the senior institutions than students who did their first two years of study at the colleges queried.

The survey includes 154 Gardner-Webb transfer students who have graduated from the nine senior schools in recent years. In most cases the report was for the years since 1952. Of the 154 graduates, 55 received ratings of superior. In addition to these, 53 were rated above average, 37 av-

**GARDEN TIME**  
ROBERT SCHMIDT  
N. C. STATE COLLEGE

Leaves and more leaves—that is the daily story at this time of year. And if you have just planted a new lawn it is an important problem. A heavy layer of oak

leaves and only nine below average. These figures are from the registrars of the nine senior colleges. "This report is indication of the high quality of work we are doing at Gardner-Webb," Dr. Phil Elliott, president remarked this week. "We are limited only by lack of funds and equipment in our teaching program, and the Golden Anniversary expansion campaign shows promise that we will have more of these in the near future."

leaves on top of a newly planted lawn will choke out the young grass seedlings in a short time. They must be removed. The usual procedure is to take them and burn them or let the city trucks carry them away. This is a great waste of valuable organic matter that should be put back in the soil.

If you have a spare corner in your garden or yard it is easy to make a leaf compost. The purpose of this leaf compost is to rot the leaves so that they are in an available form as a soil amendment and conditioner. Leaves are very difficult to rot. It will take about a year to do a good job of it. A good method is to put down a layer of leaves about a foot deep and thoroughly wet them. Then sprinkle over the leaves a fertilizer rich in nitrogen such as an 8-8-8 mixture at the rate of about one cup of fertilizer to each 10 square feet of leaf compost surface. When rotted leaves are used for general garden use, lime may also be added at the same rate as the fertilizer. If the leaves are to be used for mulching azaleas or camellias, no lime should be added. A thin layer of garden soil about an inch thick is then put over the leaves. Successive one foot layers of leaves with fertilizer and soil are built up until the pile is four or five feet high. Each layer must be thoroughly wet and the compost be kept wet until the leaves are well decomposed. The nitrogen in the fertilizer and the bacteria in the soil covering are the rotting agents. There must be plenty of moisture present for them to do their work. In eight months to a year the rotted leaves will be ready for use in the garden. This is an excellent solution to your leaf problem.

**Junior Highers Tie Forest City 6-6**

The Kings Mountain Junior High football team and the Forest City Junior High squad battled to a 6-6 tie in Forest City Tuesday night.

Forest City scored early in the game on a 52-yard jaunt by Cooper, and led until the third quarter when Kings Mountain broke Fisher loose for 65 yards and a touchdown.

The game was a see-saw battle between two evenly matched teams.

**N. C. Life Insurance Payments Up In '55**

North Carolina families received \$24,711,000 in life insurance death benefit payments in the first nine months of this year, compared with \$24,345,000 in the corresponding period of last year, the Institute of Life Insurance reported today. The number of policies becoming claims in the first nine months was 23,655, which compares with 22,355 in the corresponding period of 1954.

"The tremendous rise in life insurance buying and the increase in ownership since World War II are reflected in these current payments," Holgar J. Johnson, Institute president, said in announcing the figures. "For the country as a whole, death benefits paid in the first nine months of this year were \$117,337,000 greater than in the corresponding period of last year and 72 percent more than in the first nine months of 1954. The health record among policyholders has actually improved in the past ten years, but life insurance ownership has increased about 135 percent in these years."

Death benefit payments in this state in the first three quarters of 1955 compare with \$13,242,000 in the corresponding period of 1954.

Of this year's nine month aggregate death benefit payments in this state, \$15,353,000 was under 6,163 ordinary insurance policies; \$5,302,000 was under 2,666 group life insurance certificates; and \$4,056,000 was under 14,826 industrial insurance policies.

For the nation as a whole, \$1,699,071,000 was paid as death claims under 1,238,327 policies in the first nine months of this year, compared with \$1,542,734,000 under 1,168,719 policies in the like period last year. Of this year's payments, \$1,026,646,000 was under 363,934 ordinary policies; \$431,995,000 was under 175,339 group life certificates; and \$201,430,000 was under 699,054 industrial policies.

**Recreation Clinics To Start Nov. 24**

A series of eight weekly recreation clinics have been planned for various interested groups in the city, according to a report by Doug Salley, city recreation director.

The first of these meetings will be held at Central Methodist church Thursday, November 24, at 7:30 p. m.

The purpose of these clinics is to teach recreational activities for all age groups. Salley said that the clinics would be of interest to groups such as Scouting, church, and school organizations. He will direct the clinics.

**Greatest Go on wheels!**

Thrill to the smartness of pattern-for-tomorrow style!  
It's coming some day on other cars—this exciting blend of rakish lines and gracious luxury. But Pontiac has it now in 15 smartly fashioned models—including 6 Catalina hardtops styled with a clean distinction you've never seen before.

Yours to command  
in the fabulous '56 Pontiac

It's the talk of the test drivers—this long, low, crisply sculptured beauty! Performance is their first love—and this fabulous '56 Pontiac has it—the greatest "go" on wheels. Split-second getaway, blazing drive, razor-sharp steering and big-brake stopping—this one has them all.

It surprises you at first. It's so well behaved, so gentle and responsive. You pull away from the curb, drive, stop, turn and park with a sure and easy touch.

But it's loaded! Loaded with vibrant action you've never sampled before! There's 227 blazing horsepower packed into this great Strato-Streak V-8. And it pours through to

the rear wheels silky smooth. When it's time to make your move you just point your toe and go! Passing is a breeze as that great rush of power whisks you ahead to safety in the flick of an eyelash. And the highest hills simply seem to melt away in front of you.

Ten minutes at the wheel of this great, new Pontiac and you'll know the secret behind all the excited whispering among test drivers in the last month or so. You'll know something else, too... this is it, the one for you.

Stop by our showroom to see and drive this fabulous '56 Pontiac today or tomorrow. And be prepared for a thrill. This car will deliver it... fast!
