Many Capiases Issued By Court

Judge Jack White had an easy day of it Monday when Kings Mountain Recorder's Court held its weekly session.

With George Thomasson back on the job as solicitor of the city court, the judge had practically nothing to do.

Of the many cases called Monday, only a handful of defendants were on hand to be tried. Capiases were ordered issued for the absent offenders.

Lucia Wells Wilson charged with driving drunk, resisting an officer, and damaging public property, asked for a trial by jury. This request was granted by Judge White after the jury fees had been posted.

L. W. Painter appeared in court charged with failure to comply with the N. C. compulsory school laws, but prayer for judgement was continued after Judge White

heard the evidence in the case. Mr. Painter's son, Reginald, had been attending school, but was ordered to attend the school of the school day.

Judge White gave the boy a stern warning, and said that if he missed another day of school without a legitimate excuse, he would send him to the juvenile home for boys.

Two defendants pleaded guilty to charges of public drunkenness and were given 30 day sentences, suspended, upon payment of the costs of court.

Capiases were issued for Henry

Tate, Austin Falls, Perry Melton, Edgar Reeves, Roy Adams, and C. T. Green on charges of public drunkenness.

A capias was issued for Herman Fredell on charges of failure to pay a taxi fare and for non-support. Annie Mae Towery had a capias issued for her after she failed to appear on a charge of abandonment of a minor child.

Ned Haygood Martin forfeited a \$200 bond when he failed to appear to face charges of driving drunk.

One public drunkenness case was continued until February 13.

President Abe Lincoln Example Of Thrift, Common Sense

The man who we honor on his birthday anniversary Sunday grew up as a poor frontier youth, who few would have given a chance to live in the White House—much less to be credited with preserving the Union. Yet Abe Lincoln early showed that ambition and industriousness which characterized his entire life.

One of the keys to advancement today, as it was then, is the establishment of a regular policy of thrift, and thrift means savings.
