

### Goforth Injured In Auto Accident

H. A. Goforth, resident of route 2, Kings Mountain, was hospitalized Saturday as a result of injuries received in an automobile accident on Grover road Saturday night.

Reports indicated that Mr. Goforth's 1950 Ford Truck left the road, and in trying to get back on the highway he lost control of the vehicle. The truck turned over throwing Mr. Goforth from the cab.

He received lacerations and bruises of the head and body. He is still a patient at Kings Mountain Hospital, where his condition is reported to be improving.

### Commissioners Inspect Hospital

The county board of commissioners inspected Kings Mountain hospital Tuesday.

All board members of the commission, including Chairman Zeb V. Cline, H. B. Bumgardner, Fitzhugh Rollins, John D. White and Knox Surratt were present for the tour, then joined new members of the county hospital board of trustees for lunch at the hospital dining room. Trustees present were A. A. Parker, Oras Biggerstaff, George Thomasson and Joe Whisnant. Also present was George W. Laycock, county hospitals administrator, and Grady Howard, Kings Mountain hospital business manager.

Commissioner Bumgardner said the commissioners were highly pleased with the appearance of the recently expanded Kings Mountain plant.

### N. C. 46 Hybrid Corn Available For 1957

North Carolina corn producers will be able to plant approximately 50,000 acres of N. C. 46 yellow hybrid corn next year, states John Rice, director of the North Carolina Crop Improvement Association.

This new, mid-season, yellow hybrid was available only in limited quantities during the 1956 growing season. Rice reports that this hybrid is adapted to most of the areas of the state.

In 1955, says Rice, there were only two growers who produced N. C. 46 on 35 acres; this year, however, 14 producers grew this hybrid on 301 acres.

Rice states that this hybrid has excellent stalk strength, showing only 9 per cent lodging in the N. C. 1954 Official Variety Test for short season corn. The average lodging percentage of the other ears was 15 per cent. According to Rice, N. C. 46 was the best of 17 commercial and station hybrids in the per cent of erect plants in the 1955 Georgia Official Variety Tests.

N. C. 46 matures 4 to 5 days earlier than U. S. 282, and the ear height is less than U. S. 282. It has good weevil resistance and a low percentage of exposed ear tips. The grain quality is excellent, and yield has been equal to U. S. 282, adds Rice.

For full season demand, says Rice, the regular N. C. hybrids are being produced again this year. The hybrid which has been most popular within the state, N. C. 27, is being grown on 2,500 acres. Dixie 82 is being grown on 2,000 acres; Dixie 18 on 1,800 acres; and N. C. 42 on 1,100 acres. Rice points out that each of the above four hybrids is a full season corn with high yield and good grain quality.

Tobacco specialist report that extended dry weather in some Piedmont and mountain counties has reduced prospective yields for both the flue cured and burley crop.

### Sterchi Sets "Moonlight Sale"

Sterchi's Kings Mountain furniture retailers, will be closed all day Thursday until 5 p. m., when it opens for a special promotion it is calling a "Moonlight Sale."

J. K. Blanton, manager, said the firm will be open from 5 p. m. until midnight and is offering furniture in all departments at heavily-slashed prices.

Entertainment will also feature the event. An organist will provide music from an electric organ especially installed for the occasion and soft drinks will be served all visitors. From opening until 8:30 Radio Station WKMT will conduct a special broadcast at the store.

All adults visiting the store Thursday evening will receive favors, Mr. Blanton added.

### Mauney Wins

This was announced today by G. H. Dunlap, director of the Placement Bureau and chairman of the Scholarship Committee in the college's School of Textiles, who said Mauney was chosen as the award recipient in competition with other students at the college.

Atop-ranking student, Mauney has maintained a straight "A" average since enrolling at State College and will receive two degrees next June—one in textile chemistry and dyeing and the other in textiles. He is also active in extra-curricular activities.

Mauney is a member of a number of honorary and professional organizations including Phi Kappa Phi, Phi Psi, Sigma Tau Sigma, Beta Theta Pi, the American Association of Textile Chemists and Colorists, and the Tompkins Textile Council.

Last year he won the \$250 Charlotte Textile Club Scholarship at State College.

Mauney has been working this summer as a chemist for the E. I. du Pont de Nemours and Company in Wilmington, Del. During previous summers, he has worked for Mauney Hosiery Mill and the Carolina Throwing Company, both of Kings Mountain.

He is the son of Mr. and Mrs. Clark F. Mauney of Kings Mountain. His father is secretary and treasurer of Mauney Hosiery Mill.

The Carbide and Carbon Chemicals Company Scholarship was established at North Carolina State College's School of Textiles by Dr. E. W. Rugeley, technical director of the company's textile Fibere Division in South Charleston, W. Va.

### Enrollments

Continued From Front Page at West and East schools in prior years.

In service for the first time is the new 14-room North elementary plant, which has drawn praise of faculty and patrons, and had first day enrollment of 392 pupils. It is the first year in several the city schools have not been badly crowded for desk and classroom space.

Supt. Barnes reported heavy overloads, as expected, in the seventh and eighth grades at East school, slight overloads in these grades at North school, and small seventh and eighth grade populations at Central school. He said adjustments will be made to smooth these loads. Some 50 pupils reported to East school seventh and eighth grades.

Mrs. Nickels said that slight overloads are in evidence in the third and fourth grades at Park Grace, with the sixth grade the smallest class in the school. She said some adjustment will be necessitated and will be made.

The opening day enrollment deficit appears in elementary grades of the city system, also anticipated by school officials. First grade enrollments are off this year. However, high school enrollment is up. Central high school lists 30 additional pupils, while Davidson high school lists eight additional pupils.

The comparative city district figures for 1955 and 1956 follow by schools:

	1955	1956	Change
Elementary	428	407	21
East	314	724	410
Central	256	315	59
West	392	392	
North	174	174	
Davidson	2108	2132	24
TOTALS	480	450	30
High School	64	58	8

### Bethware Fair

Continued From Front Page

ed each evening at 9:30 on opening night, at 10 p. m. on the following two nights, and at 11 p. m. on the final night of the fair, which will close at midnight September 15.

There is no general admission to the Bethware Fair. Food will be available nightly at the school cafeteria. Members of the food committee include Mrs. J. K. Willis, Mrs. Wray Green, Mrs. Leonard Gamble, and Mrs. Charles Fisher.

Wet sand used as bedding in a livestock truck will help give hogs a cool, comfortable ride to market, according to State College livestock experts.

### This man works for our advertisers

He is a highly specialized A.B.C. circulation auditor, who periodically visits our office to examine and verify our circulation information.

He is also a reporter. His findings are published in an easy-to-read A.B.C. report which we make available to our advertisers.

In a very real sense, this man is working for you, providing facts about our circulation audience that help you to invest your advertising money on a sound business basis.

Ask us for a copy of our latest A.B.C. report.

This newspaper is a member of the Audit Bureau of Circulations, a cooperative, nonprofit association of publishers, advertisers, and advertising agencies. Our circulation is audited by experienced A.B.C. circulation auditors. Our A.B.C. report shows how much circulation we have, where it goes, how obtained, and other facts that tell advertisers what they get for their money when they use this paper.

Admission: Students 50c — Adults \$1

### ANSWERS TO TIMELY FARM QUESTIONS

QUESTION: When and how should roses be planted?

ANSWER: Except in the highest elevations of the mountains, fall is the best time for planting roses. However, early spring planting is generally satisfactory. In either case, dig the hole large enough so the roots can be spread out as they would naturally grow. Remove all broken roots. Cut the plant back to five or six inches at time of planting. Mound soil over the stem of the plant and leave it in this position until new shoots start growing in the spring. Then remove the mound of soil. Set plants about 2 1/2 feet apart.

QUESTION: Does peanut hay make good feed?

ANSWER: If peanut hay is properly handled, it is good feed. Good quality peanut hay that will compare favorably with other good legume hays can be produced if the following factors are followed in its production. (1) Increase yield and quality by controlling the insects and leaf spot disease. (2) Shake dirt from vines before stacking. (3) Stack vines carefully so that air will circulate under the stack and rain will shed off. (4) Thresh nuts as soon as they are dry, and bail hay as it comes from the thresher. Save all the leaves possible.

QUESTION: Is it too late to plant vegetables in the home garden?

ANSWER: There are some vegetables which may still be planted in the Piedmont area. These include, kohlrabi, leaf lettuce, mustard, radish, and turnip. The best planting dates end on September 15 with the exception of mustard which may be planted up until September 30. Coastal Plain and Tidewater areas may delay planting 2 to 3 weeks.

### Fatal Fallacies by Ted Key

"If we get out of this alive, Stupid...!"

### Board Session Agenda Short

The city board of commissioners will hold its regular September meeting Thursday night at City Hall at 8 o'clock with a short agenda in prospect.

Mayor Glee A. Bridges said the board will consider advertising for bids for an automobile, will conduct a public hearing on a request by Warren E. Reynolds to re-zone a portion of York road from residential to neighborhood

J. T. Nance and Dougle Davise were inducted into membership of the Kings Mountain Junior Chamber of Commerce at Tuesday night's meeting by Charlie Briley, state director. The club honored as special guests members of the Jaycee little league baseball team.
