Some of the prizes offered include a European cruise, a Lincoln Premiere, a Ford Thunderbird, and a \$5,000 college scholarship.

Census Bureau Hospitalization Survey Planned

CHARLOTTE — Special questions designed to provide national information on hospitalization insurance coverage, use of hospital facilities and related data will be asked in the September Current Population Survey, according to Supervisor Joseph R. Norwood of the Census Bureau's district office at Charlotte which will participate in the survey.

The special questions are being asked at the request of the United States Public Health Service to obtain facts for use in planning for future hospital facilities to meet the needs of the Nation's steadily increasing population and to determine methods used in financing hospital care. The survey will provide information on the number of people covered by hospitalization insurance, types of service covered such as hospital care, surgeons' fees, etc., the number of people who were hospitalized during the 12 months ending September 15 and related data.

The special hospitalization questions will be in addition to the regular inquiries on employment and unemployment asked each month in the Current Population Survey which will be conducted locally and in 329 other sections of the country during the week of September 17. Information will be collected locally by Mrs. Frances C. Hedden.

Padgetts Plan Fall Cruise

NEW YORK — A large group of doctors, with their wives, will sail aboard Swedish American Line's M. S. Stockholm from Wilmington, N. C., Saturday, November 17th for a 13-day cruise to the West Indies. The voyage, a post-graduate medical seminar cruise sponsored by the University of Pennsylvania school of medicine, will take the conventioners to Nassau, St. Thomas, Martinique, Barbados Ciudad Trujillo and San Juan.

This is the third year that the Stockholm has been chartered by the Allen Travel Service of New York for fall cruises from N. C. ports and the popularity of these cruises is best evidenced in the nickname, "The Belle of North Carolina," by which the Stockholm now is known in the South.

During the convention cruise, regular meetings and lectures will be held on board.

Among the passengers from this area are Dr. and Mrs. Phillip G. Padgett, of Kings Mountain.

Because circulation of air is needed to remove heat from the condenser, a home freezer should never fit tightly into a niche with walls on three sides.
