cars love SHELL

At Shell we spend literally thousands of hours every year getting to know what gasoline new cars like best. And when we think of the many gasoline improvements we've been able to develop (TCP* additive, for instance, to make engines run smooth), we believe all this research is well worth while. If your car hasn't tasted a Shell gasoline with TCP, you're due for a rewarding experience. Why not discover how smooth your car can run—how far you can go on a gallon? Your Shell dealer is the man to see.

*Trademark for Shell's unique gasoline additive. Gasoline containing TCP is covered by U.S. Patent 2669212.
