Follow Tips, Insure Safety On Highways

The Motor Vehicles Department has released a list of standard distress measures to be used by motorists on the Interstate highway system. Adopted by the American Association of State Highway Officials (AASH) the tips will help insure safety and prompt assistance for motorists who encounter trouble. The measures are as follows: 1. In an emergency on freeways, drivers should stop their cars on the right hand shoulder whenever possible, well away from the through traffic lanes. 2. At night the tail lights and the interior lights of the stopped vehicle should be turned on. If the vehicle is equipped with an emergency switch controlling the signal lights they should be turned on so that both right and left turn signals flash simultaneously. 3. If a car is stopped in all or

part of the traffic lane, portable warning devices should be placed to the rear of the stopped car to warn other traffic. 4. When help is needed, a white cloth or handkerchief can be displayed from the stopped vehicle so that it can readily be seen. (Note: Most commonly a handkerchief is tied to the left door handle). In addition the hood of the car should be raised. 5. Stay in the car while waiting for help. 6. After observing a distress signal, passing motorists should notify the nearest police highway or automotive service official at the first convenient opportunity, giving the location of the motorist in need of help. -The Herald - \$3.50 Per Year-

EVANGELISTS - Rev. and Mrs. Charles Ed Nelson of Rogers, Arkansas, will lead evangelistic services beginning Sunday and continuing through May 20th at First Nazarene Church. Services, at 7 o'clock nightly, will feature special music on the accordion by the couple who have been in full-time evangelistic service since 1958. Rev. H. G. Clayton is pastor of the local church.
