Grover Gets Bids On Water System

Bids for construction of a water distribution system for the town of Grover will be received by Mayor C. F. Harry until 2:00 p.m. August 24.

Grover was given the green light for taking bids on its proposed water system by the Federal Home and Housing Finance Agency after approval of the plans and specifications Saturday.

A \$148,000 water system bond issue was approved by Grover voters some months ago. Sale of the bonds was held up pending approval of the federal agency.

The agency, which does not furnish the money for the project, underwrites bond issues for towns and cities.

Mayor C. F. Harry, Jr. said the agency would take over the bond issue if it could not be sold to private interests.

Bids cover installation of the distribution system and construction of a 100,000 gallon storage tank. They will be opened at 2:00 p.m.

The elevated water tank, which will rise about 100 feet in the air, will be constructed back of the Doc Keeter home, about half a block from the new post office.

The work is listed in the specifications in four sections: installation of the distribution system; construction of the foundation for the tank; construction of the storage tank; installation of mechanical and electric equipment and construction of three pumphouses.

Bids are to be taken in two sections: construction of the tank in one and all other work in the second.

The water distribution system will consist of 13,000 feet of six-inch mains, 50 feet of four-inch mains, 7,000 feet of two-inch steel pipe, 11 fire hydrants, and an estimated 150 water meter connections and fittings.

The system will feed from three wells, one with a flow of 65 gallons per minute, another with 25 and a third with 19.

Work is to begin as soon as possible after bids are opened, perhaps within 30 days, Mayor Harry announced. The system may be in use by early 1963.

Scouts Home From Camp Week

Fifty-five boys returned to Kings Mountain today from Schiele Scout Reservation. The contingent from St. Matthew's Lutheran church was the largest group ever to represent a single troop in the Camp's almost 30 year history.

The boys returned in high spirits, many already planning longer stays next summer.

Tony Goins, Appalachian College student who led the group reported excellent behavior and a good attitude throughout the entire week.

Local scout leaders have received the best report on the trip that has ever come from camp concerning the troop.

Many of the same Scouts and others will leave Friday afternoon for three days camping at Luthentide, Arden, N. C.

Thirty-one boys received achievement awards. Many earned a badge from swimming one mile and almost everyone met several requirements for advancement in rank.
