It's nicer to do business with people you know

When you do business with a bank, you should be more than just an account number—and the bank should be more than just a building to you.

When you bank at First Union, you'll find, however, that we use names as well as account numbers, because that's the most efficient way. But we never forget it's people we're serving. And we never let efficiency stop us from helping you.

First Union is a modern bank, all right, with the latest machines and systems. But we're still old-fashioned about our friendly person-to-person banking. It makes us feel better...you'll like it better, too...doing business with people you know.

CALLING ALL HOME MAKERS By GENE TIMMS WHAT'S NEW IN LAMPS?

A great change has taken place in the type of lamps during the last few years.

There are now so many types of lamps available, both decorative and functional, which are constantly gaining in popularity. This is in addition to the conventional table and floor lamps. For instance, there's the pole lamp, the tree lamp and the chain lamp.

These new lamps, which are made in every style from Provincial to Contemporary, have certain advantages which conventional floor lamps, for example, do not possess.

The pole lamp, which is installed from the floor to the ceiling (without installation cost) gives a permanency and rigidity which no other lamp possesses. It also has the advantage of often containing two, three or more separate lights which gives better and more flexible lighting.

The tree lamp has all of the same advantages but is a free standing lamp and may be placed anywhere in the room.

Very often home makers want a lamp dropped over a particular spot, such as over a dining room table or over a chair or sofa but they do not want the trouble or expense of electrical installation and that is where the chain lamp fills the bill.

We invite you to come in and see our complete selection of lamps, and remember, for gracious living where discount is King, visit us at Timms Furniture on the Grover Rd., here in Kings Mountain.

For day-to-day specials, tune in the Gene Timms radio show on WKMT from 7:30 to 8:00 A. M.
