### CALLING ALL HOME MAKERS BY GENE TIMMS

Nothing beats experience, and we at Timms Furniture Co. — because we have been in business for so many years — can help you in so many extra ways by offering little bits of knowledge that can make a big difference to you. Here are just a few examples.

For instance, people ask, when considering an upholstered piece of furniture, "Is this a serviceable fabric?" I always reply that, in general — whether it is upholstery, drapery fabric, carpeting or the fabric in a suit or dress — hard surfaced tight-woven fabrics are apt to wear better than loose woven, shaggy fabrics. This is true whether the fabric is wool, cotton, synthetic or a combination of several types. An old trick is to scratch the fabric with your nails to feel whether it is hard surfaced and therefore good wearing.

Did you know that many people purchase sofas and chairs without sitting on them first? They simply select the style and fabric they like and sit in it only after it is delivered to their home. Needless to say, comfort should be equally important to appearance, so try it before you buy it.

The same thing applies to the purchase of mattresses. Stretch out on it and try it before you make your purchase. Imagine buying a mattress on which you will spend one third of your life without knowing whether it will give you the exact comfort you desire.

Visit our store, located on the Grover Rd. you'll be glad you did. Quality home furnishings at discount prices. You just can't beat this combination.
