**The Veterans Corner**

EDITOR'S NOTE: Below are authoritative answers by the Veterans Administration to some of the many current questions from former servicemen and their families. Further information on veterans benefits may be obtained at any VA office.

Q—I am a World War II veteran, discharged in 1944. I was rated zero percent at that time for a service-connected disability, and have had no treatment since then. The disability has started giving me difficulty. Can I obtain treatment for this condition and how can I reopen my claim?

A—You are eligible for treatment at a VA Outpatient Clinic for your service-connected disability. You may ask the Adjudication Division of the Regional Office to review your claim on the basis of treatment received. The Adjudication Division must have current medical evidence as a basis for review of the claim.

Q—I have a \$10,000 thirty-payment life National Service Life Insurance policy. I am considering borrowing on this policy. What are the terms of a policy loan, and what is the schedule of repayment?

A—You may borrow up to 94 percent of the cash value of your policy. You will be billed each year on the anniversary of your loan for the interest only at four percent. You may make payments to liquidate this loan whenever you wish. If you should die the proceeds of the policy, less any indebtedness, will be paid to your beneficiary.

Q—My U.S. Government Life Insurance is paid up but my wife has just died. I have no children and no near relatives. I really only need enough insurance to bury me. Also I owe some money that I would like to pay off. Can I change my insurance to meet this situation?

A—Yes. You may borrow against your insurance or you may cash in part of it, retaining the amount of protection you consider necessary. You may also wish to revise your beneficiary designation.
