Miss Harriet Tutterow, home economics agent in Caldwell County says homemakers should consider the price, style, and purpose of the apliance. "They should consider all construction features before buying," adds

LIBRARY TOURS All the Home Demonstration Club members in Iredell County are getting the opportunity to

tour the public library.

Mrs. Nancy Myers, home economics agent, says Mrs. Nancy Pumphrey, librarian, is assisting the educational leaders with the tours. They not only go on a tour of the library but learn to use the card catalog and the reader's guide to periodical literature. BETTER HOME

MANAGEMENT Working homemakers in Rockingham County have been studying better management around the home. Miss Anna Fitzgerald, associate home economics agent, says the homemakers received tips on good storage features for the laundry and kitchen in order to save steps, make reaching eas er, and reduce lifting and bend-

STRICTLY FRESH

A sweet old lady, always eager to help the needy, spied a sad looking old man standing on a street corner. She walked over to him, pressed a dollar bill into his hand and said, "Chin up."

The next day, on the same corner, the old man shuffled up to the lady and slipped 10 dollars into her hand. "Nice picking," he said in a low voice. "He paid nine to one."

bring problems — aphids, cater-pillars, nematodes, rose black pot, peach and apple scab and black rot of bunch grapes, to name a few. There are so many knock-out pesticides now-a-days that it is hardly respectable to let the bugs and fungus diseases get the best of you. But they will, sure enough, if you let them get the drop on you.

All spraying and/or dusting is insurance against attacks of in-sects and diseases. This is especially true of diseases because the foilage must be protected to prevent entry of the fungus. You should watch carefully for insects and spray or dust at the first sign of activity—aphids, red spiders (mites), thrips and others. Don't expect to control suck-ing insects such as aphids, red spiders and scale insects unless you do a thorough job - covering both sides of the leaves as well as stems.

These are sucking insects and will not be destroyed unless the insecticide used thoroughly cov-
