Lt. Col. Donald Olive On Pistol Team

CAMP PERRY, OHIO (FHT-NC) Aug. 6 — Marine Lieutenant Colonel Donald C. Olive, son of Mrs. G. B. Olive of 708 W. Mountain St., is serving as a team member with the U. S. Marine Corps Reserve Pistol Team competing in the 1965 National Rifle and Pistol Matches at Camp Perry, Ohio.

The pistol phase of the National Matches began on Aug. 2 and will end on Aug. 7, when awards will be presented to the high shooters in the National Trophy Individual Pistol Match and the winning team in the National Trophy Pistol Team Match.

The Reserve Pistol Team is firing against thousands of the best military and civilian marksmen from all parts of the United States and several foreign countries for some of the most coveted prizes in the world of shooting.

The pistol team is composed of Marines representing Reserve units from California to Florida and from various occupations including accountants, school teachers, policemen and a college professor. Before arriving at Camp Perry, the team fired in the Washington, D. C. Championships held at Lanham, Md., on July 24 and 25, where they won first place awards in several shooting categories.

ROTARY CLUB

Rotary District Governor C. W. (Soup) Porter will be guest speaker at Thursday's Rotary club meeting at 12:15 at the Country Club. This will be the Rotary Governor's official visit of the year, President Devere Smith said.

Agriculture In Action

AX OF CONGRESS

This session of Congress may well go down in American history as marking the death knell of representative government and the birth of an expanded welfare state ruled by centralized federal power.

The so-called medicare bill which perverts the original concept of the Social Security system is now law. It is the first step toward a complete system of medical and hospital care under the complete domination of the federal government.

The U. S. Senate is currently considering a constitutional amendment which would permit states to decide how they should elect their legislators. If this amendment fails, rural and farm people will lose their right to representative government.

The U. S. House has voted to remove Section 14 (b) of the Taft-Hartley Act, and if the U. S. Senate follows this lead, North Carolina and eighteen other states will lose their right-to-work laws. Human and state rights will be the loser to central government and the labor czars.

The U. S. House has voted for an expanded anti-poverty program and has stripped state governments of any veto power over projects in their states. There is speculation that the real objective of the anti-poverty program is not to provide jobs or education for the poor and untrained, but to build a political following of poverty clients who will receive their voting instructions directly from the party chiefs in Washington.

The old political pork barrel projects of the past now appear as puny devices when compared with the direct pipeline from the federal treasury to the millions of medicare and anti-poverty program clients. This pipeline will be enlarged with rent subsidies under a new federal housing law.

Meanwhile, another pipeline seems to be out of order. That's the one that carries the U. S. citizen's opinions to the front office in Washington. It has been cut by the ax of Congress.
