"Don't let this apron fool you—I wear the pants in this family!"

Bridges Wins Eagle Award

SAN DIEGO, CALIF. (FHT-NC) August 6—Seaman Recruit Eddie L. Bridges, Jr., USN, son of Mr. and Mrs. Eddie L. Bridges of Route 3, reported July 25 to the Recruit Training Command, U. S. Naval Training Center, San Diego, Calif., for nine weeks of basic training.

During his early days of training he will receive a series of aptitude examinations to determine which of the Navy's 65 specialty fields he will enter on completion of recruit training.

Physical fitness training, drill, naval customs and courtesies, water survival, first aid, personal hygiene, seamanship and general naval orientation will highlight the first three weeks of his transition from civilian to military life.

The Naval Training Center trains 68,000 sailors each year in its Recruit Training and Service School Commands.

Western style shops are increasing in India.

Health And Safety Tips

At what age should children learn and be able to do certain things?

Any such listing must always keep in mind the fact that no two children are alike and that development periods can and do vary widely in perfectly normal children, says Today's Health Guide, the American Medical Association's manual of health information for the family.

There are certain things that most babies learn at approximately the same age in the early development period. Here are some of them...

- * One month—Can raise chin off bed.
- * Two months—Can raise chest off bed.
- * Three months—Reaches for objects, but without success.
- * Four months—Can sit with support.
- * Five months—Can sit on lap and can grasp small objects.
- * Six months—Can sit in high chair and grasp a dangling object.
- * Seven months—Can sit alone.
- * Eight months—Can stand with help.
- * Nine months—Can stand by

holding to pieces of furniture.

- * Ten months—Can creep.
- * Eleven months—Can walk if led by one hand.
- * Twelve months—Can pull up and stand with the help of furniture.
- * Thirteen months—Can climb up a few stairs.
- * Fourteen months—Can stand alone.
- * Fifteen months—Can walk alone.

But, cautions Today's Health Guide, the parent has no real basis for either an unwarranted pride in the precociousness of the child or an unwarranted pessimism over his slowness if the child's development pattern should vary widely from the above table.

No two children are alike.

MACEDONIA SPEAKER

William A. Alexander, newly-elected Bible teacher in the district schools, will fill the pulpit at Sunday services at Macedonia Baptist church in the absence of Rev. Wayne Ashe, on vacation. He will speak at both the 11 a.m. and 7 p.m. worship services.
