HOW YOU CAN USE COLORS TO ADD DECORATING BEAUTY

Did you ever realize all the ways colors can be used to improve the decorating of a home?

Here are some various color ideas for you to think about. For instance, you may add sunshine tan otherwise drab bedroom by using yellows and whites or other bright colors on the bedspreads, drapes, walls and lamps.

The transformation of a living room may take place simply by replacing your white lamp shades with a daring accent color.

If your room has too many neutral colors, pick up one or more of these colors and use in a large pattern on the fabric of your drapes or upholstery.

A small chair in bright red velvet, for example, may make a great difference in the right spot in your bedroom or living room.

For contrast use warm colors (violet, red, orange, yellow) in a cool room, and cool colors (yellow-green, green, green-blue and blue) in a warm room.
