

Hostess DEEDS

by Jan Christensen

TOP-OF-RANGE COOKWARE Home Demonstration Club members in Clay County are taking a good look at their top-of-the-range cookware, Mrs. Ruby P. Corpening, home economics extension agent, reports. Many of them are surprised to find they have a lot of money tied up in pots and pans they seldom use.

Also, many women knew little about nonstick cookware; its quality, durability, price and its cleaning, Mrs. Corpening reports. They thought Teflon was a trade name for pots and pans; not a nonstick coating. "The Teflon coating is now being used by more than 40 manufacturers of cookware," Mrs. Corpening points out.

USE SKILLS TO SAVE DOLLARS

Several families in the Eskridge Grove Community, Cleveland County, are using skill to save family dollars, Thelma E. McVea, home economics extension agent, states.

For example, Mrs. Henry Parish and her daughter have reupholstered the seats of five chairs at a cost of less than two dollars. They bought "pieces" of fabric and did the work themselves.

The Charlie Elders and Jake Jennings families, Shelby, Rt. 5, refinished a dining table, two china closets and an end table for their home. The boys in the families contributed most of the labor.

MOTHER - DAUGHTER PROJECT

A Columbus County mother-daughter team combined talents and made a useless chair valuable at a cost of only four dollars. According to Mrs. Betty C. Thompson, associate home economics extension agent, Mary Yates, a 4-H Club member, attended a workshop and refinished a chair which had been in the family for years. The old chair's cane seat and back were completely destroyed and that's where her mother, Mrs. Raymond Yates, came in. Mrs. Yates caned the chair. Now she and Mary are both thrilled at having a family chair restored to its original beauty and usefulness, Mrs. Thompson says.

BETTER BATTER MAKES BETTER CAKES

"Better batter makes better cakes," Currituck County Home Demonstration Club members believe. According to Mrs. Elizabeth P. Sanderlin, home economics extension agent, homemakers in Currituck County have been preparing better quality cakes since they attended a class in cake making. In fact, their cakes are receiving high ratings with other people in the county—people who are buying them at bake sales or sampling them at various cost suppers.

"The secret password is, 'Open the door if you know what's good for you!'"

These cake recipes and other family favorites are being collected for use in a county cook book, Mrs. Sanderlin says.

DAUGHTER TEACHES MOTHER

"Although you may not be able to teach an old dog new tricks, a 4-H'er may be able to teach her parents new tricks," reports Effie Lee Cherry, assistant home economics extension agent, Durham County.

In fact, Gail Mize, a member of the New Hope 4-H Club, has been passing on her sewing skills to her mother. Recently Gail taught her mother to make round buttonholes. Gail says "it is lots of fun and very meaningful to have sewing classes for my mother."

Mrs. Mize feels that she has a closer Mother - Daughter relationship with Gail as a result of the "classes."

Niagara's Age
Niagara Falls was formed after the last great ice sheet withdrew from this region and scientists believe that the falls cannot be more than 20,000 years old.

Oldest Trees?
The bristlecone pines in California's Inyo National Forest are regarded as the world's oldest living things. These twisted trees have been found to be some 4,500 years old, thus antedating the giant sequoias growing elsewhere in California.

this year Mrs. Maddrey is one of North Carolina's finest citizens with a genuine interest in people."
