Just one darn minute!

That's the most an Accutron® timepiece will gain or lose in one month's time. And we'll put it in writing.

Accutron looks like a watch. But it isn't. It doesn't have a mainspring, a hairspring, or a balance wheel.

These parts make a watch run fast or slow. Accutron has replaced them with an electronic tuning fork. It splits each second into 360 equal parts. And makes the Accutron timepiece so precise, it won't gain or lose an average of more than two seconds a day. In fact, we guarantee accuracy to within 60 seconds a month.* Just one darn minute.

ACCUTRON CALENDAR "44"
18K gold, waterproof, silver radial brush dial with luminous dots and hands, brown alligator strap with 18K buckle. \$250.00

ACCUTRON "420"
10K gold-filled, waterproof, luminous dots and hands, adjustable mesh bracelet with fold-over buckle. \$175

KINGS MOUNTAIN'S LEADING JEWELERS

J. D. Buff's Father Passes

Funeral rites for George Buff, 62, of Shelby, father of J.D. Buff of Kings Mountain, were held Monday at 3 p.m. from Pleasant Grove Baptist church, interment following in the church cemetery.

Mr. Buff died Saturday night enroute to Cleveland Memorial hospital where he was being taken after suffering a heart attack.

Rev. Jimmy Sides officiated at the final rites.

Other survivors include six sons, five daughters, one brother, one sister and 26 grandchildren.

Social Security Changes Listed

While Medicare has been in the Social Security Spotlight many other important changes in social security have been overlooked. Lex G. Barkley, District Manager of the Gastonia social security office said today many people who were not able to get payments before the 1965 Amendments may now qualify.

Widows can now receive social security payments at age 60 instead of waiting until they are 62 years old. Widows applying at age 60 will get somewhat less than if they wait until they are 62 to receive full widow's benefit.

Children of retired, deceased, and disabled workers covered under social security can receive payments until age 22 if they are not married and are full-time students attending an approved school, approved schools, and colleges.

Under the new law, a person still has to have a condition that makes him unable to do any substantial work, but he may be able to get disability payments if his condition will last at least 12 months. Payments are still not made for the first 6 months a person is disabled. To qualify a person must have worked five years of work under social security in the ten years before becoming disabled.

Barkley emphasized that these are only three of the many changes brought about by the 1965 Amendments to Social Security. He urged that anyone who may be eligible for benefits under these changes contact the Social Security Office at 1320 E. Franklin Avenue, Gastonia, N. C. 3

Peace Corps Tests Slated

Kings Mountain area residents in putting their skills to use in developing nations around the world are invited to take the Peace Corps placement test at 9 a. m. on Saturday November 12, at the Main Postoffice in Charlotte.

The Peace Corps uses the placement test to determine how an applicant can best be utilized overseas. The test measures general aptitude and the ability to learn a language, not education or achievement. (If test scores indicate a limited language-learning ability, for example, the Peace Corps tries to place the applicant in an English-speaking country.)

The placement test requires no preparation and is non-competitive — an applicant can neither pass or fail.

The application form, not the placement test, is the most important factor in the selection of Volunteers. Persons interested in serving in the Peace Corps must fill out an application, if they have not already done so, and present it to the tester before taking the test. Applications may be obtained from local post offices or from the Peace Corps, Washington, D. C. 20525.

The placement test takes about an hour and a half.

In a few more decades Japan's coal resources will be exhausted.

You And Social Security

Q. Have the required number of work credits needed to draw disability payments been reduced in the last few months?

A. No, the law still requires work under Social Security for five years out of the ten years before you became disabled.

Q. Two years ago I filed for Social Security disability benefits because I was too weak and short of breath to keep my job. My claim was turned down, but I still cannot work. How do I get help?

A. A change made in 1965 to the Social Security law now permits payment to a person whose disability is expected to last at least 12 months. You should contact your Social Security office and file a new claim.

Q. Does Social Security pay benefits to dependents of a person who is disabled?

A. Social Security will pay benefits to a wife of a disabled person if she is 62 years old or has a child under 18 years of age in her care. Benefits will also be paid to unmarried children between the age of 18 and 22 who are full-time students, or children over age 18 who become disabled before their 18th birthday.

Health And Safety Tips

This is the season of the year when the American Medical Association reminds once again that you can't cure a cold.

And if anyone tries to sell you the latest version of a so-called "cold cure" you can save your money.

Many of the classic diseases of history have succumbed in the 20th century to new medical skills and modern drugs. But the cold virus still successfully resists the best efforts of the world's combined medical research talent.

As the years go by more and more is being learned about colds and their causes. A number of viruses produce the symptoms that most of us call a cold, possibly as many as a hundred. The true cold is an infection with one or more viruses. Bacteria are believed to be purely secondary infections.

Current research seems to indicate that colds are harder to spread than has been thought. Fresh colds appear to be more contagious than older ones. Children's colds probably are more contagious than those of adults. There still is much discussion among experts as to the relationship of becoming chilled or exposure to dampness to "catching" a cold.

What can you do for a cold? No specific treatment, so far available, is effective against the cold virus. Any treatment is directed toward relief of the discomfort of runny nose, watering eyes, sore throat, slight fever and the other symptoms of the cold. Penicillin does not stop the virus, but may be prescribed by your physician for secondary bacterial infections. Bed rest, or at least inactivity, is helpful. Your physician may suggest mild medication to help relieve the discomfort.

Cold vaccines have yet to be proved of much value. There is no evidence that any particular foods, vitamin supplements, special clothing or exposure to sunlight or fresh air have any effect on colds.

If a cold persists or seems unusually severe, see your doctor. Colds are great imitators and the early symptoms can mimic those of other more serious infections. Recurring colds may not be colds at all, but may be allergic attacks that require medical attention.

RESULTS Make The Difference

Whatever anybody undertakes, results make the difference. The fact that he has gotten results is what has made B. Everett Jordan one of the most effective public servants in our state.

He has a formula, just plain hard work, and his hard work has paid off for the people of North Carolina.

Consider just a few examples:

- He is the author of legislation which established the one-price cotton program, a program that has brought new life to the cotton industry, all the way from the farmer to the textile worker.
- He is the author of the acreage-poundage program for tobacco.
- He worked to complete the valuable W. Kerr Scott Reservoir on the Upper Yadkin River.
- He guided legislation through the Congress authorizing the New Hope Dam in the Cape Fear River Basin, the Falls of the Neuse Dam in the Neuse River Basin, and the deepening of the Wilmington channel to major-harbor depth.

The list of accomplishments goes on and on, because Senator Jordan believes in North Carolina and what we can do if we keep on working at it. As he has done in the past, he wants to continue working for North Carolina.

Re-Elect
B. Everett Jordan
United States Senator

General Election, November 8, 1966

(Paid Political Adv.)
