

Patrol Urging Seat Belt Use

RALEIGH — The Highway Patrol is responding to a request by the Public Health Service to encourage motorists to use their seat belts.

"Beginning July 1, the Patrol will include in their reports to news media information about whether an accident victim was wearing a seat belt. These reports will become a permanent part of accident investigation," Colonel Charles A. Speed, Patrol Commander, said.

Dr. Richard E. Marland, Chief of the Injury Control Program with the Public Health Service, has asked North Carolina Troopers to join other state enforcement agencies across the nation in providing seat belt data to the press.

"The news media reports on accidents are a direct point of contact with the general public," Dr. Marland said. "If these reports tell whether seat belts are used in covering a specific accident, it will emphasize, by example, their importance."

Colonel Speed said Troopers have usually included that information when reporting to news media in the past. "But beginning July 1, such information will be a regular part of all accident investigation reports," he added.

Speed said the Patrol has always had excellent cooperation from news media in North Carolina with projects such as this. "We are certain that news me-

Bonds Sales Climb High

U. S. Savings Bond sales continued their upward trend in North Carolina during the month of May. Sales totaling \$4,859,672 were up almost 5 percent over May of last year and were the largest sales recorded for May since 1947.

Cumulative Savings Bond sales for January - May totaled \$26,341,145, which is over 13 percent above sales for the same period of 1966. E Bond sales were up almost 13 percent and H Bond sales were up more than 28 percent over January - May sales of last year. This is 37.4 percent of North Carolina's 1967 dollar quota of \$70,400,000.

Bond sales in Cleveland County, according to Mr. George Blanton, Jr., Cleveland County Volunteer Chairman, were \$37,372 in May. Cumulative sales for the year amounted to \$233,249, which is 39.3 percent of the county's quota of \$593,613.

Media reports on accidents can help emphasize the importance of using seat belts when they include the information we supply them in their stories," Colonel Speed said.

The Public Health Service already has embarked on a campaign to acquaint the nation's news media with the importance of including seat belt data in their stories on accidents.

We care

real tough customer

Because you can't fool him.

He likes peanut butter.

As a matter of fact, he's an expert on the subject.

But he's a tough hombre to convince.

He doesn't want to hear about Ann Page's "jet-roasting" process.

Don't tell him we remove the air in the mixture to improve flavor—or that, nutritious as it is, Ann Page Peanut Butter costs less.

He doesn't care about details.

We care and you may care. But he doesn't.

He just wants it to taste good.

Luckily for us, Ann Page Peanut Butter tastes so good.

A&P Customers prefer Ann Page by more than

3 to 1 over any famous brand sold in our stores.

To satisfy your "tough customers," shouldn't A&P be your store?
