Wright evaluated each man's requirements and outlined his individual program of preparation for advancement in rating.

In a letter of appreciation, Capt. A. H. Sallenger, NAS Commanding Officer, stated, "Your success in motivating lower rated dental technicians to aggressively pursue advancement opportunities is evidenced by the outstanding record achieved by Dental Department personnel in the August '67 advancement examination. Seven of eight non-rated dental technicians passed the examination and will be advanced to petty officer status."

He further commented, "This is a most enviable record. You undoubtedly should share in the felicitations offered this fine group which you have led to unparalleled success."

He concluded, "Through your actions, you have proven to be a valuable asset to the Dental Department, the Air Station and to the Navy."

They err, surely, or at least, they exaggerate—who claim that in the ever-loving outpouring on the rest of the world, we never get anything in return.
