### AMATEUR PAPER HANGERS

In the past few years it has become difficult to find a skilled paper hanger in Davidson County, so 69 homemakers decided to

become do-it-yourselfers.

These women attended a special interest meeting on "Wallpapers and Wallcoverings," sponsored by the members of Extension Homemakers Clubs of the county.

At the session, a wholesale wallpaper supplier showed a film on the manufacturer of wallcoverings, demonstrated simple techniques for hanging paper and showed the basic tools needed.

One of the larger paint and wallpaper dealers in Davidson County estimates that 85 percent of the paper sold is hung by the homemaker or other family members, says Mrs. Martha B. Thompson, home economics Extension agent. So the "in thing" is to learn how to do the job properly, she believes.

**GIVE PART OF SELF**  
Knitting for a common cause can bring communities together, notes Mrs. Fonrose J. Gore, home economics Extension agent, Orange County.

One Orange County homemaker, Mrs. Wiley Perry is a knitting enthusiast. And she has been encouraging the women of her community to knit socks for soldiers in Vietnam.

"Knitting is very simple to do," Mrs. Perry says, "and every woman feels she is giving a part of herself when she makes the socks."

### TAKE TIME TO LEARN

Modern appliances aren't a convenience unless the homemaker spends some time learning how to use them, believes Brenda K. Smith, assistant home economics Extension agent, Scotland County.

In fact, the agent says, the willingness to experiment is the dividing line between the buyer and the consumer. If a homemaker has had an appliance for four or five years and has never taken it out of the box, the chances are that appliance will never be very useful. Unless one is willing to use his imagination and spend some

time experimenting, a time saving device can be worthless, the agent asserts.

Homemakers in Scotland County, recently attended a workshop on the use of small appliances, including the blender.

"They were given some helpful hints," Miss Smith says. "But the ladies will still do well to experiment on their own," she adds.

### MONEY IN THE POCKET

Rhonda Lewis, a first year Pasquotank County 4-H member, has learned that sewing can mean more money in the pocket. She made aprons decorated with snowflake embroidery for her project and has sold about \$20 worth.

Rhonda's mother taught her to do the embroidery stitch, Charlotte Griffin, assistant home economics Extension agent, notes.

### Winn-Dixie Notes Increase In Sales

Winn-Dixie Supermarkets increased their sales by \$102,366,331 during the 32 weeks ended Feb. 8 compared with the corresponding period last year.

The volume totaled \$747,438,349 against \$645,072,018, a gain of 15.87%. An advance also was shown for the four weeks ended Feb. 8 when sales were \$99,536,917 compared with \$86,378,537, a rise of \$13,158,380 or 15.23%.

The company currently operates 778 food stores compared with 739 a year ago.

Biologists at Bell Laboratories had a "big" problem recently when they found themselves with 40 pounds of surplus whale meat on their hands. They needed just a few pounds of it for their hemoglobin research, but the Canadian supplier refused to ship anything less than 40 pounds. What to do with the extra meat? After some thought, the scientists decided to try to eat the meat — it has somewhat the consistency of steak. At last report, they had chewed their way through only one-third of it.
