

Congressman James T. Broyhill's Washington Report

QUESTIONNAIRE RESULTS
During my four terms in the House of Representatives, I have sought each year the opinions of the people of the district I represent on national issues.

the direction these people would like the country to travel.
In several thousand instances where people felt categorical "yes" or "no" answers were inadequate, they took the trouble to explain their sentiments in detailed comments.

As in previous years, the war in Vietnam continues to be the most pressing problem facing our people. In answer to the question, "Do you believe that the United States should withdraw its troops from South Vietnam now?" 51% of the people agreed that all the troops should not be withdrawn at this time.

able to express its wishes more definitely.
Concerning Federal assistance to people who are covered by Social Security, feelings are strong in the 10th Congressional district that the benefits should be made more realistic so as to reflect the recent increases in living as well as costs of medical care.

Reflecting their continued concern about campus disorders, an overwhelming 95% favor denying Federal funds to students actively engaged in campus violence.

Crime in the streets and the individual's awareness of its increase is no doubt reflected by the 71% support of a White House request for an additional \$25 million appropriation to fight organized crime.

Detailed results of the poll are now available and copies may be obtained by writing to me at Room 436 House Office Building, Washington, D. C. 20515.

On Lake Trials

"The Lake Authority Bill"
Down on the Creek, where people go
To catch some fish from Buffalo,
There is a lake; we all do know;
From which we hope some water will flow.
