Mrs. Wayne Roark, Mrs. David Roark and Mr. Hardin of Blacksburg, S. C. visited David Roark at Fort Stewart, Ga. last weekend.

Gaston Citizens Receive Patents

Recently two additional patents were issued to Gastonians employed by Lithium Corporation of America in the Research and Development Division.

A patent entitled "Stabilization of Secondary Alkylolithium" was issued to Dr. C. W. Kamienski (Director-Organic Lab), Dr. R. O. Bach (Manager-Research) — both of Gastonia — and W. S. Leonard (formerly of LCA and a resident of Bessemer City). This patent covers how the stability of sec-butylolithium can be increased by the adding of isopropylolithium. This comes into importance when the product must be stored for a prolonged period of time or must be shipped over great distances.

Another patent has been issued to Dr. C. W. Kamienski, C. B. Morrison (Research Chemist) — both of Gastonia and A. C. Diesing (formerly of LCA). This patent "Preparation of Solutions of Lithium - Hydrocarbon Compounds" explains that the presence of organo lithium compounds promotes and catalyzes reaction of lithium metal dispersions to form other organo lithium compounds. This patent should make it possible for many chemists to utilize dispersions of lithium on a broad-scale.
