Health Tip
By WILSON GRIFFIN
Unconscious because of injury or illness is usually a protective act of nature. Bystanders should NOT try to arouse the victim—no shaking, shouting, no splashing water, no smelling salts, no liquids to the mouth which might choke the unconscious person. He needs rest or he would not be unconscious.
Let the victim lay flat if his face is pale—a pillow beneath head and shoulders if he is flushed.
Summon medical help—meanwhile control any bleeding, and give mouth to mouth resuscitation only if breathing has stopped. Avoid moving the patient if possible.
After you see your doctor, bring your prescription to
Griffin's Drug Store
